

Little Market Day Nursery in Romford Launch Their New Website

January 06, 2016

January 06, 2016 - PRESSADVANTAGE -

Little Market Day Nursery has launched their new website and has now begun its independent journey to success as a day nursery for children. The nursery focuses on giving children the educational development and confidence they need to reach their full potential. As well as being a fun and creative environment, the staff at Little Market Day Nursery define boundaries of acceptable behaviour to make sure the learning environment is safe for the child.

Tezcan Mehmet, the owner of the nursery has always had an interest in childcare. Since gaining her NNEB Level 3 and NVQ Level 4, she has strived to become an owner of a children's day care centre. She states, "Our close knit team consists of fully qualified staff who hold a level 2, 3, 4 and staff training towards a level 5. All staff go through an enhanced DBS check and most staff are first aid trained." Tezcan and her team are passionate about the children's wellbeing and actively practice rewarding and praising good behaviour.

The day nursery located in The Wykeham Centre has three rooms; The Baby Bear Room, the Mini Bug Room and the Butterfly Room, each with different areas to assist the children in their social and individual development. The Little Market Nursery provides play areas, a food and drinks area, a computer area and

book corner along with places to display their children's work.

The proud owner then goes on to say, 'We are fortunate to have a highly qualified, experienced and talented staff. However we are different to other nurseries in Romford as we also offer opportunities to those who want to learn the profession, by taking on apprentices who have a strong passion for working with children.' With their staff growing, it's no wonder they've been working on a website to reach out to new faces.

Their website, which can be found at <http://littlemarketnursery.co.uk/>, has given the Little Market staff a chance to show what they have to offer. The new website has a gallery of some of the work they do as well as a page about the staff team and their qualifications. You can also choose to subscribe to their news updates. Tezcan and the staff at Little Market Nursery are glad to finally be put on the map.
