## **Solicitor In Romford Takes Over Liss Gulhane Innes & Co.**

*January 13, 2016*

January 13, 2016 - PRESSADVANTAGE -

A law firm based in Romford, Essex, United Kingdom, is proud to announce that they have recently taken over the firm Liss Gulhane Innes & Co. In so doing, they have been able to boost both their family law and conveyancing teams, including their client base, making them the best solicitor Romford has to offer. The takeover has gone very well, and clients have already expressed their satisfaction with the new arrangements.

Roisin McCorry of McCorry Connolly Solicitors says: "Taking over Liss Gulhane Innes & Co. had been a great move. There is no longer any need to be in competition with each other, and we have ensured that the clients of Liss Gulhane Innes will receive a much improved service with the addition of our expertise. We're happy to see that people are already noticing the benefits resulting from this merger."

Kevin Connolly was responsible for conveyancing cases before the takeover. Now, he is assisted by Ben Willans, a shared ownership transactions specialist. Together, they form an effective Romford conveyancers team. They are also accredited by the Law Society Conveyancing Quality Scheme. As such, they can guide their clients through the three main stages of conveyancing with ease.

The services offered by the law firm are being highly positively received. "I would like to thank Roisin for all the help, skill, and guidance she gave me whilst going through an acrimonious divorce earlier this year," says Phillip H. "She gave me confidence and the belief that all would be well and that settlement would be reached, which did happen. The dedicated team are also a great asset to the practice and nothing ever seems to be too much trouble for them."

McCorry Connolly Solicitors has been serving clients for some years now and they have built up an excellent reputation for delivering high quality services. By taking over Liss Gulhane Innes & Co, they are further able to improve what they already do, expanding on their knowledge and expertise base. This can only be to the benefit of their clients. While a takeover is often considered to be a stressful move, it seems that they have come through it very well.
