

Berks County Plastic Surgeon Named Top Doctor by Castle Connolly

July 11, 2024

July 11, 2024 -
Wyomissing, PA?Berks Plastic Surgery announced that board certified plastic surgeon Dr. Brian K. Reedy was recognized as a Top Doctor by Castle Connolly.

The Reading, PA plastic surgeon expressed his appreciation for his patients as well as his highly experienced Berks Plastic Surgery team, which includes a full operating room staff, a dermatology provider, cosmetic medical injectors, patient coordinators, and office staff.

?I share this recognition with the entire Berks Plastic Surgery team, who are dedicated to keeping patients safe and providing the highest standard of care,? Dr. Reedy commented. ?It is gratifying to see our team?s commitment to excellence acknowledged by my peers in the medical community.?

The Castle Connolly Top Doctors list encompasses doctors from all major specialities and in all 50 states. Its doctors are chosen by fellow physicians and represent only the top 7% of physicians in the nation. The

rigorous evaluation process undertaken by Castle Connolly incorporates peer nominations, extensive reviews by a research team of physicians, and comprehensive assessments of the nominees' educational backgrounds, medical training, hospital affiliations, and disciplinary records. This underscores the prestige of the Top Doctor title. To protect the integrity of this process, physicians cannot financially influence their inclusion within the Castle Connolly directory.

?I trust Castle Connolly physicians with my family?s care, and receiving this accolade reaffirms that we are serving our community of patients with the superior standard of care they deserve,? said Dr. Reedy.

For patients seeking cosmetic plastic surgery, in particular, it is key to find a vetted surgeon who has the skills to not only offer excellence in safety, but also in cosmetic outcomes. While the surgeon?s training, board certification, and positive reviews from patients are primary measures of their expertise, Castle Connolly Top Doctor status may also aid patients in the search for a surgeon. It offers a trust mark that patients can rely on for assurance of excellence, which is especially important for plastic surgery patients looking for the best of the best in elective procedures.

Castle Connolly?s online directory allows patients looking for a trustworthy, vetted physician to search by location, health insurance, hospital, specialty, or the reason for their doctor visit. Doctors? profiles share information about their years in practice, hospital affiliations, and contact information to allow patients to more easily make an informed decision.

Together with fellow plastic surgeon Dr. Scott C. Lindsay and the Berks Plastic Surgery team, Dr. Reedy leverages research-backed surgical techniques and technology. This, and their focus on creating a professional and welcoming environment for their patients, distinguishes them within the region. In addition to surgical services, Berks Plastic Surgery provides non-surgical treatments such as Botox® and dermal fillers, as well as dermatological services for a wide variety of skin conditions.

?We strive to offer patients world-class care, starting with a warm, welcoming experience when they first walk in,? commented Dr. Reedy. ?We operate in a private, state-of-the-art surgery center, and completely center our services around our patients? needs. We believe it is critical for patients to settle for nothing less than an excellent doctor and practice.?

Dr. Reedy has practiced plastic and reconstructive surgery for over twenty years in the greater Reading, Pennsylvania area. He is board certified by the American Board of Plastic Surgery and is an award-winning, nationally-recognized surgeon, having been featured on the Emmy Award-winning show The Doctors, in regional talk shows like Good Day PA, and in local publications like the Reading Eagle and Berks County

Living Magazine. Dr. Reedy has a wealth of expertise in a range of procedures, and is an expert in breast augmentation, breast lift, liposuction, tummy tucks, and mommy makeovers.
