

Harmony & Healing's 4th Annual Benefit Concert: How Planned Giving Supports Their Musical Mission

August 02, 2024

San Ramon, California - August 02, 2024 - PRESSADVANTAGE -

Harmony & Healing has announced its 4th Annual Benefit Concert lineup, set for October 18, 2024, at the Bankhead Theater in Livermore, California. This year's concert will feature BRITAIN'S FINEST, voted as ProTributeBands.com's #1 tribute band to The Beatles. The Benefit Concert is vital for raising funds to support Harmony & Healing's mission of providing live musical Zoom performances for hospice and hospital patients and their families.

David Victor, who founded Harmony & Healing and was a former guitarist and co-lead vocalist for the band BOSTON, believes in the power of music to lift spirits. "Our annual Benefit Concert allows us to bring people together for a night of music and community," said Victor. "The funds we raise during this event directly contribute to our ability to offer live, virtual musical visits to patients in need." The organization relies on corporate and private donations, along with planned giving initiatives, to fund its services.

One of Harmony & Healing's core services is the ability for patients or their loved ones to request a

virtual musical visit. Through Zoom, Harmony & Healing coordinates these visits with musicians at no cost to the patients. This provides a much-needed break from the extreme challenges patients face daily.

Harmony & Healing also keeps its community in the loop with regular news updates about its activities and upcoming events. "Keeping our supporters informed is a priority for us," said Victor. "Through our news updates, people can stay up-to-date on the latest initiatives and events we're organizing."

Besides organizing the Benefit Concert and offering virtual performances, this music nonprofit collaborates with professional musicians who have access to top-notch studios. Information about the artists, a sample of their work, and applications for musicians wanting to join the cause are available on the Harmony & Healing website. To learn more about how Harmony & Healing works with these talented artists, explore their artist information page on their website.

The organization also sheds light on its work through the "Healing Music for Hospice" page on its website, explaining how live music can provide comfort and peace to those in hospice care. Music has been shown to reduce stress, promote relaxation, and create a calming environment, which is especially beneficial for patients with dementia or those nearing the end of life. For more details, visit <https://www.harmonyandhealing.org/healing-music-for-hospice/>.

Supporters of Harmony & Healing's mission can make donations directly through the organization's website. Sponsorship packages for the Benefit Concert are also available for both corporate and individual donors, offering a chance to support a meaningful cause while gaining community visibility.

For those interested in learning more about the organization's history, operations, and opportunities for involvement, the "About Harmony & Healing" section on the website provides detailed information. The site also includes contact details for further inquiries and information. For more information about the organization, visit their website.

David Victor emphasized the importance of transparency and community involvement. "We value the trust our donors place in us. That's why we are committed to transparency and keep open lines of communication with our supporters," Victor stated.

Harmony & Healing encourages ongoing support through planned giving. This allows donors to make significant contributions that might be larger than what they could give from their income. Planned giving can include bequests, trusts, and other financial instruments that benefit both the donor and the organization.

Visit their website to learn more about this music non-profit and its initiatives. Whether looking to request a musical visit, catch up on the latest news, or get details about the Benefit Concert, the site offers comprehensive information on all their services.
