Payroll Services Now On 30 Day Free Trial Offer

January 07, 2016

January 07, 2016 -

ePay Payroll, a payroll service provider in Chino Hills, CA, is proud to announce that they now offer a 30-day free trial period to all new clients. This will give clients the opportunity to see the kind of payroll services that they provide and how they can benefit. The offer is already proving to be very popular.

Zack Gasa from ePay Payroll says: "There are still so many business owners who think that they can save money by doing their payroll themselves. We want to contest this. We believe that by outsourcing this task to us, businesses will free up more time to focus on other vital aspects of their business, and that this means they will see a return on investment. Plus, it means that their payroll will be done properly at all times. To prove our point, we now offer a 30-day free trial to all new clients, so they can experience this for themselves."

ePay Payroll offers comprehensive payroll services to suit different types of clients. Services include such things as tax services, input methods, debit cards, direct deposits, general ledger, labor distributions, tip services, workers' comp reporting, certified payrolls, job costing, payroll on the internet, paperless payroll, accountant services, time and attendance, and sample reports to name but a few. Essentially, they encourage all businesses to contact them and discuss what their particular payroll needs are, and they will come up with a package to meet those needs.

The payroll services that the company offers have been positively received. "I was most impressed by ePay Payroll for the one-on-one implementation and the high level of customer service," says Joe Monakian from JM Floors and Kitchen, Inc. "Dedicating one single person for our company allowed us to have someone who knows our products and more."

ePay Payroll encourages everyone to visit their website on epaypayroll.com. Here, they will be able to request a quote for the services that the company can offer them. The quote is free and no obligation. Should a client decide to sign up, they will automatically receive their first month completely free, enabling them to get a real feel of its advantages.
