

Team Driver Transport, New Expedited Freight Service Launches

January 07, 2016

January 07, 2016 - PRESSADVANTAGE -

Team Driver Transport, a new expedited freight service, has hit the road. The company offers flatbed, tractor trailer, straight truck and sprinter van transport services, all while using a team driver system, which allows their trucks to stay on the road 24 hours a day and customer's freight to arrive much faster than regular shipping services.

Edward Saldivar from Team Driver Transport says: "I have worked in expedited freight myself for over 20 years. The one thing that most freight carriers weren't offering that we are is availability 24 hours a day, seven days a week, 365 days a year. We know shipping emergencies don't follow a schedule and that's why we're always available."

Saldivar has experience in all aspects of transporting goods and he knows the entire country as if it were his home. Team Driver Transport meets all the necessary standards and is fully licensed and insured by the Department of Transportation. The company prides itself on one-on-one customer service and highly competitive rates.

Unsurprisingly, Team Driver Transport is already getting a lot of positive reviews. "I needed rapid freight transportation for an emergency," says Peter F. "I know I should have done my research, but this was such an emergency that I picked the first company I came across, which was Team Driver Transport. Boy, am I glad I did. They got my shipment to where it needed to be very quickly, even though the destination was across the country. I'm incredibly impressed with their speed, service and price and won't go anywhere else for my rapid transportation needs anymore."

The company has launched a comprehensive website at teamdrivertransport.com to showcase their various services. The website also lists the various legal and insurance documents that prove that the company is fully regulated with the relevant departments.
