

"Sunday School Works Launches New Chronological Bible Curriculum for Kids: A Year-Long Journey Through Scripture"

July 17, 2024

SELLERSBURG, IN - July 17, 2024 -
Sunday School Works is excited to announce its new "Foundations Bible Curriculum." This new 52-week chronological Bible curriculum is built for kids aged 6-12. It will cover the entire 2024-2025 school year, from July 28, 2024, to August 3, 2025. This curriculum will guide children through the Bible, starting from Genesis and ending in Revelation, and can be used in Sunday School or Children's Church settings.

The Foundations Bible Curriculum aims to help kids understand the timeline and context of biblical events. It shows how different parts of the Bible connect and highlights God's consistent character and plan. Each lesson focuses on Jesus as the main figure, ensuring a Christ-centered approach to teaching.

This new program is designed to be easy for teachers to use. It includes clear instructions, activity suggestions, and all necessary resources. Tony Kummer, the editor at Sunday School Works, said, "We selected 52 of the most essential Bible lessons every child needs to learn and arranged them in the order

they appear in the Bible. These lessons will show children how God's big story unfolds and that Jesus is the hero of it all."

One of the key features of the Foundations Bible Curriculum is its age-appropriate content. Each lesson is designed to engage young minds and hearts, making it easier for children to grasp and remember the teachings. The curriculum is flexible enough to accommodate small churches with different age groups.

In addition to weekly lessons, Sunday School Works offers extra materials to support the curriculum. These include Bible study verses, scripture quotes for reflection, children's sermon object lessons, coloring pages, craft activities, and Sunday School games. These resources make learning interactive and fun for kids.

Teachers also get support and encouragement from Sunday School Works. The organization knows the essential role teachers play in religious education and offers resources to assist them. This includes reviews of various materials and resources to help teachers choose the best options for their classes. For those seeking even more resources, the company provides comprehensive Sunday School curriculum for kids and specialized content for preschool Sunday School classes. You can find additional resources on the Sunday School Curriculum page.

Tony Kummer also mentioned, "We've done the hard work so you can save your time and energy to serve the kids. This chronological curriculum covers every Sunday in the 2024-2025 school calendar. Following our scope and sequence, you will lead the children on a year-long journey through every major section of the Bible."

The curriculum is designed to provide a structured and seamless approach to teaching Bible stories and concepts. It emphasizes building a solid foundation in biblical knowledge from a young age, which can significantly impact children's spiritual growth and understanding.

Along with the main curriculum, Sunday School Works offers resources for other areas of children's ministry. These include Vacation Bible School programs, youth ministry resources, and Sunday School games to make learning engaging. The company also provides resources designed for preschool Sunday School classes, which address the unique needs of the youngest learners.

The release of the Foundations Bible Curriculum is a major addition to the resources offered by Sunday School Works, supporting children's ministry leaders and Sunday School teachers with high-quality, ready-to-use materials.
