

Dr. Fouad Samaha Named a Top Doctor by Boston Magazine for Third Consecutive Year

July 16, 2024

QUINCY, MA - July 16, 2024 -
Quincy, MA?Boston Plastic Surgery is thrilled to announce that board-certified plastic surgeon Fouad Samaha, MD has been named a Top Doctor by Boston Magazine for the third consecutive year?2022, 2023, and now 2024. This prestigious recognition underscores Dr. Samaha?s unwavering commitment to excellence in the field of plastic surgery.

?I am truly honored to receive this award once again,? Dr. Samaha said. ?Boston Plastic Surgery has been a proud part of the greater Boston community for many years. This recognition reflects the dedication and hard work of the entire team at my practice, from the operating room staff to our medical injectors who provide patients with superb non-surgical treatments.?

With over 30 years of experience, the Boston plastic surgeon is renowned for his expertise and dedication to patient care. Board-certified by the American Board of Plastic Surgery, Dr. Samaha has authored a number of articles in peer-reviewed journals and has made presentations both locally and nationally. Dr. Samaha?s

proficiency in a range of plastic surgery procedures, as well as his commitment to using advanced techniques and personalized treatment plans, has garnered him a loyal patient base and several accolades, including Castle Connolly Top Doctor status since 2004.

According to the practice?s Patient Coordinator, Maureen Walls, RN, ?Dr. Samaha has consistently demonstrated exceptional plastic surgery skill and compassion, and he has spearheaded a team that works together to help each patient feel informed, comfortable, and cared for. He has genuinely earned this recognition among Boston?s top medical professionals.?

Dr. Samaha?s love of plastic surgery began while he was a medical student at the University of Virginia, where he was taught by creative minds such as Dr. Milton Edgerton, a pioneer in the field. After training in General Surgery in New York at a Columbia University teaching hospital, he completed his Plastic Surgery Residency at Saint Louis University. This was followed by a fellowship in Hand Surgery and Microsurgery at the Buncke Clinic in San Francisco, where he was trained in complex reconstructive procedures.

The practice is dedicated to providing personalized care and achieving natural-looking results tailored to each patient's unique needs. Alongside female plastic surgeon Alannah Phelan, MD, Dr. Samaha and the Boston Plastic Surgery team offer a comprehensive array of services including breast augmentation, tummy tucks, liposuction, facelifts, breast lifts, male breast reduction, and mommy makeovers. An equally skilled and experienced team in the on-site Skin Wellness Center offers medical spa treatments, including Botox®-type injectables, dermal fillers, CoolPeel laser, acne treatment, Sofwave skin tightening, Hydrafacial®, vein reduction, and chemical peels.

The practice?s innovative Dermfit Skin Fitness program focuses on foundational skin health through a personalized and consistent approach, harnessing the power of clinically-proven active ingredients, targeted procedures, and, optionally, injectables. This program is akin to a gym membership for your skin, with customized plans tailored to each individual's skin care needs and lifestyle.

?We have been honored to serve a wide audience of patients in the Boston area over the years, and, with that knowledge, carefully designed our skin fitness program to encourage healthy dermatological habits and reward patients for their commitment to medical skincare,? explained Dr. Samaha. ?Aesthetic medical care today reaches far beyond the traditional plastic surgery procedures. Patients benefit enormously from using a medical grade skincare routine and getting routine cosmetic treatments from our skilled and experienced aestheticians and nurse injectors. These treatments can delay the need for more invasive procedures.?
