Watertight Homes Expands Premier Basement Conversions Services to Harrogate

July 25, 2024

Derbyshire, England - July 25, 2024 -
Watertight Homes Ltd, based in Leeds, West Yorkshire, England, is proud to announce the extension of its premier basement conversion services to Harrogate. Established in 2000, the company has been serving families and businesses across Yorkshire, including Leeds and Manchester, for over two decades. The company offers a variety of important services such as damp proofing, basement waterproofing, woodworm treatment, and timber preservation.

Watertight Homes Ltd understands the needs and concerns of homeowners looking to expand their living spaces. Basement conversions are a significant part of their service offering. They transform unused basements into functional rooms such as home offices, playrooms, and entertainment areas, thus enhancing the livability and value of homes.

Mathew Milner, CEO of Watertight Homes Ltd, stated, "We are excited to bring our expertise in basement conversions to the residents of Harrogate. Our goal has always been to offer practical, cost-effective solutions that increase both space and property value. Our team is committed to ensuring that even the oldest Victorian cellars can be brought to life with modern techniques."

The company's dedicated team is skilled in handling various projects to meet specific client needs. Their portfolio includes home cinemas, extra bedrooms, and games rooms, among other conversions. Furthermore, Watertight Homes Ltd focuses on ensuring these new spaces remain dry and habitable through effective damp proofing methods. They offer damp proof courses and damp proof paint to protect against water ingress.

Watertight Homes Ltd also provides a free survey to potential customers, allowing homeowners to understand the scope of their project and the options available. With over fifteen years of experience serving the Yorkshire and Lancashire regions, the company is known for delivering guaranteed results and competitive pricing.

"Our basement conversions not only create additional living space but also prevent damp and water-related issues," Milner added. "It's an investment that greatly enhances home functionality and increases property market value without sacrificing garden space."

The company's commitment to quality and customer satisfaction is evident in their extensive range of services. Besides basement conversions, they diagnose and solve damp-related problems, treat woodworm infestations, and take measures for timber preservation. They also address issues like condensation and wet rot, ensuring the structural integrity and safety of properties.

Watertight Homes - Basement Conversions in Harrogate shows the company's dedication to evolving with customer needs. By relying on their rich history and extensive knowledge, they continue to provide reliable property care solutions. Their robust waterproofing services, including basement tanking (applying a waterproof coating to the walls and floor of a basement to prevent water ingress), are especially notable.

Customers can find useful resources, through their new YouTube Video, which provides visual guidance on how these conversions can improve living spaces. This YouTube video hosted by Watertight Homes Ltd details their conversion processes and success stories.

The company's upcoming plans include extending their conversion services to more locations while maintaining their core values of quality and customer satisfaction. Their team aims to ensure each project is completed to the highest standards, safeguarding the health and safety of residents while enhancing the overall property experience.
