Auxilion Unveils Cutting-Edge Solutions to Transform the Modern Workplace

August 19, 2024

Dublin, IE - August 19, 2024 -
Auxilion has launched new services to transform the modern workplace. These services will help businesses adjust to new technology and the changing work environment.

Auxilion's modern workplace solutions include cloud technology, application modernization, Power BI, Power Apps, Microsoft Teams adoption, and SharePoint migration. These services are designed to improve business operations and employee engagement.

"Auxilion aims to provide businesses with the tools they need to thrive in a rapidly changing workplace landscape," said a representative from the Auxilion Team. "Our focus is on integrating advanced technology to streamline business operations and foster greater collaboration and productivity among employees."

One major feature of Auxilion's modern workplace solutions is cloud technology. This service lets businesses move to a hybrid cloud model, offering scalability and flexibility. By using the cloud, companies can manage their IT resources more efficiently while keeping their data secure and accessible.

Auxilion also helps update business applications to meet today's demands. Using their Application Modernisation Methodology, companies can improve their current applications, making them more functional and user-friendly. This leads to better efficiency and aligns with business goals.

For better data visibility and connectivity, Auxilion implements Microsoft's Power BI. This tool helps businesses gain valuable insights from their data, enabling informed decisions. Additionally, Auxilion helps create professional-grade applications using Power Apps to support modern workplace needs.

Microsoft Teams adoption is another key service from Auxilion. By helping businesses integrate, train, and onboard Microsoft Teams, Auxilion enhances communication and teamwork within companies.

SharePoint migration services are also offered by Auxilion. These services make file sharing and data management easier by centralizing data storage for quick access. Auxilion's SharePoint Data Management services streamline information sharing and retrieval, boosting overall efficiency.

Auxilion's Governance365 service helps businesses set and follow updated governance and control policies. This keeps companies compliant with regulatory standards and optimizes their operations.

One special service from Auxilion is the implementation of Microsoft Viva. This service acts as a hub for managing and improving the employee experience. By combining various tools and platforms, Microsoft Viva provides a seamless experience for employees, boosting engagement and productivity.

Auxilion also offers business process optimization services, focusing on implementing business process management capabilities to create workplace efficiencies. Improving business processes can greatly enhance performance and streamline operations.

Networking services are another critical offering from Auxilion. They implement and manage modern hybrid networks, ensuring businesses have secure and reliable connections. This is crucial for supporting the extensive network of devices in today's digital environment.

Auxilion has seen significant growth on LinkedIn, with over 13,757 followers and a strong presence in the IT services industry. The company is known for its expertise in strategic consulting, digital transformation, and project management. The new modern workplace solutions highlight their commitment to providing tailored IT services that support the unique goals of different businesses.

"We are dedicated to helping businesses navigate the complexities of the modern workplace," added another representative from the Auxilion Team. "Our solutions are designed to improve communication, collaboration, and overall business performance."

Auxilion's new services aim to support businesses on their journey to a more efficient and connected work environment. Whether it's through cloud technology, application modernization, or Microsoft Teams adoption, Auxilion remains a leader in IT services.

More information about Auxilion's services can be found on their website at auxilion.com. Users are also encouraged to follow Auxilion on LinkedIn for updates and insights from the company.
