August 05, 2024 - PRESSADVANTAGE -

[MIAMI LAKES, FLORIDA] ? All-Inclusive Preventive Care, a gynecology clinic, provides various gynecological services in Miami Lakes. These services include routine checkups, well-woman exams, family planning consultations, menopause management, and diagnostic procedures. The clinic emphasizes patient-centered gynecological care for women in Miami Lakes.

?We are dedicated to providing comprehensive and compassionate gynecological care to women in Miami Lakes,? said Evelyn Rodriguez, APRN and owner at All-Inclusive Preventive Care. ?Our goal is to ensure that every patient feels comfortable and empowered to discuss their health concerns, knowing they will receive the best possible care tailored to their needs.?

All-Inclusive Preventive Care provides a broad spectrum of gynecology services. All-Inclusive Preventive Care provides gynecology services such as routine checkups, well-woman exams, family planning,

menopause consultations, and diagnostic procedures. The clinic uses advanced technology, such as transvaginal ultrasounds, for diagnostic purposes. Services also include HPV vaccinations and osteoporosis screenings, essential for preventive health.

All-Inclusive Preventive Care stresses the importance of gynecological services. Regular gynecological check ups can detect issues like cervical cancer and HPV early. The clinic emphasizes the importance of routine screenings and open communication between patients and their gynecologists. The gynecologists at the clinic provide expert care tailored to each patient's needs.

All-Inclusive Preventive Care also strives to help patients understand gynecological health as a whole. All-Inclusive Preventive Care provides information on the female reproductive system, including the menstrual cycle, hormonal regulation, and issues related to the female reproductive organs. Patients can access a glossary of common gynecological terms and understand conditions affecting the vagina, cervix, uterus, ovaries, and pelvic floor.

All-Inclusive Preventive Care addresses gynecological conditions and diseases. The clinic provides care for a variety of conditions that impact women's health, including Menstrual Disorders, with treatment for dysmenorrhea (painful periods), menorrhagia (heavy periods), amenorrhea (absence of periods), and other issues relating to menstruation. Infections, including diagnosis and treatment for vaginal infections like bacterial vaginosis (BV), yeast infections, and sexually transmitted infections (STIs). Pelvic Pain, including management of conditions like endometriosis, pelvic inflammatory disease (PID), and interstitial cystitis.

The clinic also provides services for Reproductive Cancers. The clinic offers early detection and treatment of cervical, ovarian, and uterine cancers and also provides services in gynecologic oncology. The clinic additionally provides services for Hormonal Disorders, including comprehensive care for polycystic ovary syndrome (PCOS), premenstrual syndrome (PMS), and menopause. Plus, Infertility services, including comprehensive infertility evaluations and treatments are available.

Comprehensive gynecological examinations and tests are important for overall health. Routine care includes exams such as Pap smears, pelvic exams, and breast exams, which are conducted to maintain gynecological health. The clinic offers diagnostic tests, including ultrasounds, alongside preventive measures like HPV vaccination and genetic testing for cancer. Screenings for fibroids, cysts, and other gynecologic issues are also available to diagnose and treat conditions before symptoms worsen. The gynecologist will perform these tests to ensure thorough care. As an all-inclusive medical center, the gynecologist will also work closely with the patient's primary care provider at All-Inclusive Preventive Care for whole-patient health services.

The clinic also provides medical treatments and minimally invasive procedures. All-Inclusive Preventive Care offers hormone therapy, antibiotic treatments, pain management strategies, and minimally invasive

treatments for various gynecological conditions. Minimally invasive and robotic surgery options are also available for suitable cases. Family Planning and Birth Control services are also available. All-Inclusive Preventive Care provides birth control methods, emergency contraception, and sterilization procedures, including oral contraceptives, intrauterine devices, implants, injections, morning-after pills, and copper IUDs. The clinic's family planning services support women's reproductive health at all stages of life.

All-Inclusive Preventive Care promote health and wellness, providing information on sexual health, healthy relationships, and addressing sexual dysfunction. It also offers guidance on diet, exercise, lifestyle impact on gynecological health, and mental health support, ensuring a comprehensive approach to women's health.

Patients can access resources, including support groups, national and international organizations, online communities, personal narratives, case studies, and educational materials such as books, articles, videos, and webinars. The clinic creates an atmosphere in which patients can openly discuss their questions and concerns. All-Inclusive Preventive Care offers resources for healthcare providers, including continuing medical education (CME), clinical guidelines, and information on research and innovations in gynecology. It also provides guidance for those pursuing careers in obstetrics and gynecology. Affiliated with the American College of Obstetricians and Gynecologists, the clinic stays at the forefront of medical advancements.

Isabel Rumberg shares her positive experience with All-Inclusive Preventive Care, "I recently visited All-Inclusive Preventive Care, and had an exceptional experience. Both my primary care doctor and the gynecologist were extraordinary, providing thorough explanations and top-notch care. The staff was welcoming, and the environment felt warm and inviting. What stood out the most was how my doctors took the time to explain every detail, making sure I understood the process and felt comfortable with the recommended treatment plan. They patiently answered all my questions and addressed my concerns, demonstrating a genuine interest in my well-being. It's rare to find healthcare professionals who are so dedicated to their patient's comfort and understanding. I highly recommend All-Inclusive Preventive Care LLC to anyone seeking excellent care from compassionate and knowledgeable doctors. I will definitely be coming back here for any future needs."
