Connect Support Group Enhances NDIS Support Services with Expanded Team of Support Coordinators

August 06, 2024

August 06, 2024 -
Connect Support Group has announced that it is expanding its core services to better meet the diverse needs of its clients. This registered NDIS provider in Australia supports people with disabilities of all ages and requirements. Connect Support Group's wide range of services, offered in English, Mandarin, and Cantonese, includes NDIS Support Coordination, Social and Community Access, Assistance with Daily Life, NDIS Occupational Therapy, and NDIS Plan Management.

Connect Support Group's NDIS Support Coordination service assists clients in connecting with suitable service providers and coordinating supports to help them achieve their NDIS plan goals. By broadening this service, Connect Support Group aims to offer more comprehensive assistance and improve outcomes for clients.

"Our goal is to ensure that every individual can take full advantage of their NDIS plan," said a representative of Connect Support Group. "By enhancing our NDIS Support Coordination, we are investing in the future of our clients, allowing them to live more fulfilling lives."

The company's Social and Community Access service encourages clients to participate in community activities and engage socially. This service has been expanded to help more clients foster personal growth and become more actively involved in their communities. Additionally, the Assistance with Daily Life service supports clients in managing everyday personal activities, enabling them to live as independently as possible. This help can be provided at home, in the community, or a combination of both.

"With our expanded services, clients now have more opportunities to engage in activities that bring them joy and purpose," said a representative from Connect Support Group. "Our team is dedicated to supporting their journey and enhancing their quality of life."

The company's NDIS Occupational Therapy program is another essential part of its service offerings. Occupational therapists at Connect Support Group work with clients to improve their ability to engage in

meaningful activities. Personalized support plans are created to help clients reach their goals and increase their independence.

Connect Support Group also provides NDIS Plan Management, giving clients choices and control over their NDIS budget. With the help of a professional to manage their funding and bills, clients can focus on their quality of life rather than administrative tasks. This service allows clients to make the most of their NDIS funding without dealing with complex paperwork.

A key part of the team at Connect Support Group is the role of the support coordinator. These professionals help clients in navigating and managing the various aspects of their NDIS plans. Each support coordinator is committed to providing personalized assistance to ensure clients receive the best possible care and services.

In addition to the main services, Connect Support Group supports carers of children with disabilities or developmental delays. The organization provides resources and information about the NDIS, helping carers navigate the complexities of the system. The company's online portal allows clients to log in and manage their services, offering convenience and ease of access.

The company prides itself on its experienced team of professionals who strive to offer the best care and support for their clients. The ndis support coordinators at Connect Support Group work closely with clients to ensure their NDIS plans are effectively implemented and managed. For more information about the services offered by Connect Support Group, visit their website.

Connect Support Group continues to be a reliable partner for people with disabilities and their families in Australia. With a firm commitment to inclusivity and personalized care, the company is dedicated to making a positive impact on the lives of its clients.

"NDIS planning can be complex," added the representative. "Our support coordinators are committed to assisting clients every step of the way, ensuring they stay informed and in control of their plans."
