

Web Design Company Partners With Health Care Recruitment Firm

January 11, 2016

January 11, 2016 -

A digital marketing agency in Virginia Beach, VA, has recently partnered with Search One Inc., a Florida based health care recruitment firm. The company will be helping Search One improve their website and online presence so that they can hit their 2016 business goals. Specifically, they will be offering their SEO focused website design services, as well as other expertise.

James Pemberton from WeRank says: "We are really excited about our venture with Search One Inc. We believe that our specialty services will enable them to make a real difference to the market. The fact that it is a health care recruitment agency, meaning that the work they do improves the world as a whole, is something we take very seriously and we're proud to have been chosen as their digital marketing provider. We're also happy to see that our work is already starting to show results."

Search One - Recruitment Services has a singular focus, which is health care. They recruit nurses, physical therapists, occupational therapists and speech therapists at present. They may expand their services to other areas in the future, although the focus will always be on health care positions. Since entering into a partnership with WeRank, their website has been redesigned to be more SEO friendly and to better

showcase the work that the agency does.

"WeRank has only just started working with us, but they have already done some tremendous work," says Bill from Search One. "Our entire website looks better and many of our candidates have complimented us on how good it looks. The rest of the SEO related work that WeRank is doing is also paying off, as traffic to our site has increased significantly. For us, it means that we are better able to fill our positions and hence increase the overall quality of health care."

The company encourages everybody to visit the new Search One website on http://www.searchonejobs.com. The site includes job listings and testimonials, and also various pieces of interesting industry news. They will continue to work with the agency for the foreseeable future in order to further improve their overall rankings.
