

One Freight Broker Expands Services to Enhance Carriers Support and Boost Industry Transparency

August 23, 2024

August 23, 2024 - PRESSADVANTAGE -

One Freight Broker, part of the Test Drive family, announces the expansion of its services to better support carriers and shippers alike. Founded in 2013, the company has continually used its logistics expertise to cut shipping costs and boost profitability for both clients and asset fleets. The new services aim to build stronger relationships, improve transparency, and keep fixed margins low while providing top-notch customer service.

The new services are tailored to meet the changing needs of the industry, expanding on the company's core principles. D. Fox, Co-Founder and President of One Freight Broker, states, "We believe these service expansions will not only meet the existing demands of our clients but also set new standards for transparency and efficiency in shipping and logistics."

One Freight Broker focuses on building lasting, profitable relationships by managing shipments monthly and connecting businesses with reliable trucking partners. This helps save both time and money. Their strategic approach offers deep insights, making it easier for clients to handle the complex world of logistics.

Transparency is a key part of One Freight Broker's services. The company integrates asset fleets after thorough evaluations to create a collaborative environment. This helps bridge the gap between carriers and shippers, benefiting everyone involved. "Full transparency has always been at the core of our operations. Our inclusive approach reduces misunderstandings and builds trust among carriers and shippers," says D. Fox. For more details on how our transparency approach benefits you, visit [One Freight Broker's services page](#).

Maintaining a low fixed margin is another important feature for One Freight Broker. Unlike traditional brokers who maximize profits by charging high rates to shippers and low rates to carriers, One Freight Broker aims to satisfy all stakeholders. This approach aligns with the company's dedication to fairness and efficiency in logistics.

World-class customer service is also a key part of what One Freight Broker offers. The company works closely with clients to understand their unique shipping needs and provide tailored solutions. Clear communication channels with carriers ensure regular updates on shipment status and any changes in requirements. This proactive approach ensures everyone is well-informed and ready to handle any logistical challenges.

To help those interested in joining the industry, One Freight Broker has published a detailed guide on the requirements for getting a freight broker license. This guide covers things like minimum age, citizenship criteria, educational and experience recommendations, and the bonds, insurance, and fees needed. It also explains the steps required to pass the freight broker exam. The guide helps make the process easier for aspiring freight brokers to meet these requirements and enter the industry. Read more about getting a freight broker license on the [official website](#).

Additionally, the company has developed an article on courier load boards. This resource explains what courier load boards are, how they operate, and their benefits. These platforms help courier drivers and companies find and bid on loads efficiently. The article offers practical tips like optimizing profiles, building relationships, and planning efficient routes to help carriers make the most of their opportunities. Find out more about courier load boards on our [blog](#).

One Freight Broker's wide range of services includes Full Truck Load (FTL), Partial Truck Load (PTL), Less Than Truck Load (LTL), and even expedited shipping options. The company customizes these services to meet the unique shipping requirements of each client, ensuring the best solutions for both urgent and regular freight needs.

D. Fox says, "Our mission at One Freight Broker is to bridge the gap between shippers and carriers with our comprehensive, transparent services. By doing so, we aim to set new benchmarks in customer satisfaction

and operational efficiency within the logistics industry."

These new services and informative resources show One Freight Broker's ongoing commitment to leading the industry with innovative, client-focused solutions. Through these efforts, the company continues to reduce shipping costs and improve the profitability of asset fleets, solidifying its role as a key resource in logistics.
