Home Instead Weston super Mare Elevates Care Services with Major Upgrades in Burnham-on-Sea

September 13, 2024

September 13, 2024 -
Home Instead Weston super Mare has rolled out significant upgrades to its live-in home care services in Burnham-on-Sea and nearby areas. These improvements are aimed at offering better support for clients and their families, ensuring the highest quality of care. Services will now be more readily available, with shorter waiting times to meet the immediate needs of the community.

Mike Keig, the owner of Home Instead Weston super Mare, shared his thoughts on the recent upgrades: "We've made substantial investments to enhance our live-in care services, aiming to provide the best possible support for our clients. Our mission is to help older adults maintain their independence while receiving the care they need."

As part of the upgrades, caregivers will undergo specialised training programs to better handle various health conditions and personal care needs. Updated care plans will also be introduced, tailored to each client's unique situation. This personalised approach is meant to address individual needs more effectively.

"By focusing on personalised care, we can support both the physical and emotional well-being of our clients," Keig added. "Our caregivers don't just provide medical and personal care; they also offer companionship and emotional support, which are key components of overall health."

Home Instead Weston super Mare offers a full range of in-home services such as companionship, home help, personal care, and specialised care. These flexible services can be customised to meet different needs. Whether it's help with shopping, meal preparation, diabetes monitoring, or mobility assistance, the services aim to cover all aspects of daily living. The service area includes Weston-super-Mare, Burnham-on-Sea, Banwell, Winscombe, Bleadon, and the larger surrounding regions.

The company has also upgraded its communication systems to keep clients and their families continuously

informed, fostering trust between caregivers and clients, which is essential for effective care.

During the initial assessment, each client undergoes a detailed evaluation to identify specific needs and preferences. Based on this, a customised care plan is developed, ensuring all aspects of care are covered. This personalised approach is a core principle of Home Instead Weston super Mare's services.

Besides personalised care plans, the company emphasises the emotional well-being of its clients. Recognising that companionship is fundamental to overall health, caregivers are trained to provide both physical support and meaningful emotional interaction.

The company is constantly seeking ways to innovate and improve its services. It has received several awards for service quality and has formed partnerships with various community organisations. These partnerships provide additional resources and support, enhancing the overall care experience.

Home Instead Weston super Mare operates from 9:00 AM to 5:00 PM, Monday to Saturday, and offers 24-hour online support. This ensures that assistance is always available, providing peace of mind for clients and their families.

The commitment to quality care goes beyond physical health, focusing on creating a supportive and compassionate environment. This approach aims to enrich the lives of older adults in the community.
