January 13, 2016 - PRESSADVANTAGE -

Marion Lee, an experienced makeup artist in Adelaide, Australia is proud to launch her newly improved bridal makeup services. Her services are designed to be much better than those of enthusiastic and well-meaning friends and newcomers. She aims to ensure that when it comes to wedding makeup Adelaide brides can have that special day they have been looking for while looking their very best.

Marion Lee herself says: "Most girls have been dreaming about their wedding day since they were little girls, using white sheets and pillowcases to create their dress. I believe, as do the brides I have worked with, that you only get married once, so I will do everything I can to ensure my brides look exactly the way they have always dreamed of. It fills me with pride to be able to be a part of such an important day and I take my responsibility very seriously."

When it comes to finding a makeup artist Adelaide has quite a number of professionals available. However, Marion Lee is known to be one of the best. She is committed to staying up to date with new fashions, techniques and makeup products, thereby always offering the best to her clients. She also regularly undertakes further training in order to remain up to date with current trends and fashion.

Her services have been very well received by the many brides with whom she had worked with. "I just wanted to say a huge thank you for doing my make up, my bridesmaids and my mum's make up for our wedding," says Breanna. "The make up was perfect and has come up a treat in the photos. I appreciate the fact we could just show you our dresses and you could do your thing because apart from wanting a natural look I really had no idea. You were so easy to communicate with and lovely to have around throughout the morning. I was so pleased that you were able to do our make up after doing such a great job at my sisters wedding over 3 years ago."

Those looking for the best wedding makeup Adelaide has to offer are encouraged to like Marion Lee's Facebook page.
