

Go Industries Unveils New Winch Grille Guard for Chevy Truck Models

August 28, 2024

Richardson, TX - August 28, 2024 - PRESSADVANTAGE -

Go Industries Inc., a trusted provider in the truck accessory and custom manufacturing sectors since 1978, has just launched a new line of winch grille guards for popular truck models. These new products are designed to improve both the functionality and protection of trucks. They cater to several specific makes and models, including the Chevrolet C4500, Chevy 6500, Ford F750, F650, and International CV515 trucks.

The winch grille guard for Chevy truck offers strong front-end protection while allowing for easy hood access. This product can be installed without any cutting or drilling, making it a convenient addition for truck owners. It is also designed with a tilt body, so the grille guard can move forward easily. Customers can learn more about the winch grille guard for Chevy truck or place an order by visiting the Go Industries website.

A representative of Go Industries commented on the new release: "Our new winch grille guards show our ongoing commitment to innovation and customer satisfaction. We've listened to our customers' needs, and these products are designed to meet those demands effectively. Made in the USA, these grille guards

provide the durability and functionality our customers expect."

The winch grille guard Chevrolet truck is another key product in this new line. It includes features such as a secure locking mechanism with two OEM-style latches and safety pins. The winch tray can hold up to a 16.5k winch, accommodating most brands. Fully welded with headlight brush guards made from 1.9-inch, 14-gauge tubing and 2.5-inch center cross tubes, this product ensures long-lasting durability. This grille guard comes in a black textured powder coat finish, enhancing its look while providing extra protection against wear and tear. Customers can explore more about the winch grille guard Chevrolet truck and find detailed specs and ordering options on the official Go Industries website.

"The inclusion of a winch tray and the sturdy construction make this product a valuable addition for any truck owner seeking enhanced protection and functionality," stated the representative. "We take pride in offering products that not only protect but also add to the truck's overall utility."

In addition, the winch grille guard for Ford truck aims to meet the needs of Ford F750 and F650 owners. Its features meet the high standards Go Industries is known for. Like the other grille guards in the new line, it boasts a no cutting or drilling installation, making it user-friendly. The product is designed to be compatible with various winch brands and supports easy hood access through its tilt body design. More information about the winch grille guard for Ford truck can be found on the Go Industries website.

Besides these product releases, Go Industries continues to offer a wide range of truck accessories and law enforcement equipment. These include Rancher Grille Guards, Pro Series Bumpers, Air Flow Tailgates, Heavy Duty Headache Racks, and more. The company's focus on quality and customer satisfaction is evident through its extensive product line and custom manufacturing services. More details about these offerings can be found on the Go Industries website.

Go Industries also remains dedicated to providing valuable resources for its customers. This includes detailed product instructions, a product catalog, warranty information, and how-to videos available on their website. The company's Platinum Status with SEMA further shows its commitment to delivering high-quality products and services.

For over forty years, Go Industries has built a reputation for offering reliable products tailored to meet the needs of truck owners and law enforcement agencies. Their new winch grille guard line continues this tradition, providing durable, functional, and easy-to-install solutions for popular truck models. Truck owners can explore the full range of products and make purchases directly through the Go Industries website.
