GreenMountain GreenWalls Launches Bi-Weekly Indoor Plants Maintenance Packages to Enhance Green Spaces

August 29, 2024

August 29, 2024 -
GreenMountain GreenWalls, a Vermont-based company specializing in living plant walls and preserved moss art installations, has announced the expansion of its maintenance services. This new offering includes weekly, bi-weekly, and monthly indoor plant maintenance for both residential and commercial clients. In addition, the company now offers customizable consulting packages that cater to each customer's specific needs.

Focused on bringing nature indoors, GreenMountain GreenWalls aims to transform spaces into lush green sanctuaries. Their product lineup includes living plant walls, preserved moss art, interior landscaping, and a variety of maintenance options. With this announcement, they enhance their offerings by providing more comprehensive Vermont Indoor Plant Maintenance services.

Andrew Lawrence, a representative from GreenMountain GreenWalls, spoke about the new maintenance packages: "We understand the unique challenges that Vermont's climate presents for indoor plants. Our goal is to make it easy for everyone to bring a bit of greenery into their spaces while ensuring that plants remain healthy and vibrant."

GreenMountain GreenWalls offers different maintenance plans to suit various needs. For weekly and bi-weekly maintenance, their team visits clients' locations to take care of living plant walls and other installations. This includes tasks like grooming, watering, and feeding the plants. For those who prefer less frequent care, monthly maintenance packages are also available. These plans help ensure that plants thrive without needing daily attention from the owners.

The company also provides consulting services aimed at clients outside their primary service areas or those

who have staff to manage the installations. Their consulting approach is broken down into two phases: initial consulting and additional sessions. This ensures clients receive tailored advice and solutions for their specific plant maintenance needs.

Additionally, GreenMountain GreenWalls promotes "Vermont-Friendly Foliage: Top Indoor Plants That Thrive in Green Mountain Climate." This initiative educates the local community about the best indoor plants suited for Vermont's unique climate. Through blog posts and guides, they share tips on maintaining proper lighting, humidity, and temperature for indoor plants. These resources aim to help both novice and experienced gardeners succeed in creating a thriving indoor garden.

Another benefit of GreenMountain GreenWalls' maintenance program is the peace of mind it offers clients. For instance, their weekly maintenance packages come with a limited warranty that covers 75% of plant replacement costs if a plant fails. Their bi-weekly packages cover 50% of replacement costs. This added assurance helps clients feel more confident in their investments.

GreenMountain GreenWalls services are available in Vermont and Northeastern New York. They make it convenient for clients to schedule consultations and maintenance visits. For more information about their Vermont Plant Maintenance Experts offerings, customers can visit GreenMountain GreenWalls' contact page.

The company prides itself on working within various budgets while providing exceptional service. Their dedication to quality has made them a trusted name in Vermont and beyond. For example, Ashley from Highline Design Studio shared, "We recently worked with GreenMountain GreenWalls on two large projects, one residential and one commercial. The communication, organization, and trust can't be beaten. We are looking forward to working with them soon."

For those looking to add natural beauty to their spaces, GreenMountain GreenWalls offers a variety of solutions, from small living wall installations to expansive commercial projects. By expanding their maintenance services, they continue their commitment to transforming spaces into green sanctuaries. For more details, potential clients are encouraged to visit their website and explore the various offerings at GreenMountain GreenWalls.
