

Live Oak Contracting Celebrates 10 Years of Commercial and Multifamily Construction

August 30, 2024

JACKSONVILLE, FL - August 30, 2024 -
Live Oak Contracting, a leader in multifamily and commercial construction, proudly celebrates its 10th anniversary this year, marking a decade of delivering high-quality projects across the East Coast.

Founded by industry veteran Paul Bertozzi, the company has successfully completed over $1 billion in contract work, establishing itself as a trusted name in the construction industry.

Over the last ten years, Live Oak Contracting has distinguished itself through a wide range of specialized services, including project due diligence review, estimating, plan review, value engineering, and design-assist build.

These offerings have enabled the company to handle complex projects, from luxury multifamily developments to large-scale commercial and industrial facilities, ensuring that each project is completed with meticulous attention to detail and integrity.

?Reaching our 10th anniversary is a testament to the hard work and dedication of our team,? said Bertozzi. ?We are proud of the lasting partnerships we've built and the high standards we maintain in every project we undertake.?

Live Oak Contracting?s approach to construction management is comprehensive, covering every phase from preconstruction to project completion.

Their preconstruction services include project scheduling, procurement planning, and subcontractor coordination, all aimed at delivering projects on time and within budget.

The company?s expertise in accurate project estimating ensures that clients receive realistic and complete budgets, taking into account all aspects of materials, labor, and additional costs.

Live Oak Contracting?s design-assist build services foster close collaboration with architects and designers, ensuring that projects are not only feasible but also aligned with clients' budgets and expectations.

This early collaboration helps avoid potential issues later in the process, resulting in smoother project execution and higher client satisfaction.

As Live Oak Contracting looks to the future, the company remains focused on building long-term partnerships through integrity and quality work. "We are always striving to enhance our processes and services to better serve our clients," said Bertozzi. "The construction industry is constantly evolving, and so are we. Our clients trust us to deliver on our promises, and we take that responsibility very seriously."

With a proven track record and a commitment to innovation, Live Oak Contracting is poised to continue its success in the years to come.
