January 11, 2016 - PRESSADVANTAGE -

Dr. Jolene Brighten has procured through her thoughtful and informed text what so many mothers in 2016 are grappling with in our medical system. The book addresses the deficits in the healthcare system by informing patients how to advocate for themselves with their family physician.

The book addresses the concept of the fourth trimester, a time where mothers are often overlooked as they become themselves. The book addresses postpartum health, when the mother is healing physically from birth but simultaneously adapting to her role as a mother. Dr. Jolene Brighten explains, ?Doctors rarely address the health of the new mom after the 6-week checkup. Even as a doctor, I had so many questions after the birth of my son. I wrote the book I wish I?d had.? Having developed Hashimoto?s following the birth of her son, Dr. Brighten became a strong advocate for patients with Hashimoto?s. Through the practice of medicine she refined her skills with a special emphasis in fertility, pregnancy, and postpartum thyroiditis and has distilled these interesting findings into her book H?ealing Your Body Naturally After Childbirth - The New Mom?s Guide to Navigating the Fourth Trimester

The book covers topics from breast and vaginal health to mood and libido after birth and includes a collection

of time-tested naturopathic remedies paired with leading-edge medical advice, including scientific labs

patients can directly request from their doctor. Dr. Brighton offers instruction in how to talk to doctors to

ensure medical needs are met.
