Acorn Tuckpointing Expands Repair Services to Meet Growing Demand in Greater Chicago Area

September 05, 2024

September 05, 2024 -
Acorn Tuckpointing & Masonry Restoration, a family business in its third generation, is excited to announce the expansion of its service offerings. Operating in the Greater Chicago Area since 1952, the company is renowned for its exceptional masonry and tuckpointing services. This expansion will include more comprehensive solutions for residential, commercial, industrial, and institutional projects.

The company has built a solid reputation for its wide range of services. These include traditional tuckpointing, masonry, chimney repair, caulking and grinding, chemical cleaning, lintel replacement, waterproofing, and parapet wall rebuilds and repairs. Each service is performed with great skill and attention to detail, ensuring the longevity and structural integrity of various buildings.

Acorn Tuckpointing & Masonry Restoration has decided to broaden its offerings to meet the growing demand for comprehensive masonry solutions. The new services will cover advanced stone carving, stone fixing and replacement, and lime harling and rendering. These additions are anticipated to bring even more value to an already extensive inventory of repair and restoration options.

Chester, a representative from Acorn Tuckpointing & Masonry Restoration, remarked, "We are thrilled to expand our service offerings to better meet the needs of our clients. Our goal has always been to provide reliable masonry repair services, and this expansion allows us to do so at an even higher level."

Tuckpointing, one of the company's mainstay services since its start, involves filling joints in masonry to prevent water from getting in. This process is crucial for maintaining and prolonging the life of masonry structures. By enhancing this service, the company plans to offer more effective and durable solutions for property owners.

The company's broadened masonry services will now feature more specialized work like stone dressing,

stone carving, stone fixing, and replacement, as well as lime harling and rendering. Each service is designed to handle specific aspects of masonry repair and conservation, making Acorn Tuckpointing & Masonry Restoration a comprehensive solution for all masonry needs.

Another important service is chimney repair. Whether a chimney needs minor fixes or a complete reconstruction, the experts at Acorn Tuckpointing & Masonry Restoration are ready to handle it. Lintel replacement, which involves replacing the horizontal support in a building, helps maintain structural integrity. Waterproofing services are essential for protecting homes and commercial properties from the elements.

When it comes to chemical cleaning, the company offers effective methods to rejuvenate old properties. This service ensures buildings not only look good but also have a prolonged lifespan. The repair and reconstruction of parapet walls, which are the sections of the wall at the edge of a roof, terrace, or balcony, are also highly specialized services offered by the company.

Acorn Tuckpointing & Masonry Restoration prides itself on being fully licensed and insured, holding an A+ rating from the Better Business Bureau. This commitment to excellence and client satisfaction means they deliver services that stand the test of time.

Chester added, "Our mission is to keep up with the high-quality workmanship our clients expect from us. By expanding our services, we are positioning ourselves to handle a wider range of masonry challenges while maintaining high standards."

For more information on the expanded services, people are encouraged to visit the tuckpointing page on their website. Details about their advanced stone working services are also available on the masonry repair page. With this expansion, Acorn Tuckpointing & Masonry Restoration solidifies its position as a leader in masonry work in the Greater Chicago area.

Acorn Tuckpointing & Masonry Restoration remains dedicated to providing reliable and professional services. The company operates from 6:00 am to 8:00 pm from Monday to Sunday and offers 24-hour emergency services to meet urgent needs.
