

Microwave Divided Plates With Lids Help Promote Healthy Eating

January 11, 2016

January 11, 2016 - PRESSADVANTAGE -

Sanford, FL - The microwave divided plates with lids from Amazon vendor, Monika's Marketplace, have been found to be a suitable alternative to consuming fast food. Designed to store leftovers and for easy reheating, the product can go directly from the refrigerator to the microwave, without the hassle of changing containers.

Busy people who used the containers and provided feedback have been commenting on being able to take their leftovers to work for lunch, promoting a healthier home cooked option than consuming trans-fat infested fast foods.

"These plates make it super easy to take tonight's leftover dinner and pack it up for my husband's lunch the next day. The lids snap on with ease and come off with just a little effort. We have used them to microwave with and it leaves no stains behind on the plastic. I love that they come with the two extra storage containers for dips and the like, so that they don't mix with the food on the plates. These will save us a ton of money on take out by my husband being able to take his lunch to work with him, and the added bonus that he is able to eat healthier," said Linda Perry, a verified Amazon reviewer.

The new divided plates with lids offer an easy and quick way to warm leftover food, in addition to also being user-friendly and microwave, dishwasher and freezer safe. Customers also consistently praise the divided plates with lids from Monika's Marketplace for being certified BPA free, eliminating the chance of being affected by the harmful chemical commonly found in plastics.

They are available in a size of 8 inches in diameter by 2 inches in depth, which is a normal plate size. However, its separate compartments and vented lids are designed to result in even heat dispensation, making it superior to similar products.

"I was really excited to get these. Eating healthy can sometimes be a chore. As a single mother with only one child I often cook way too much, so these were a way for me to store extra food so it wouldn't go to waste. They've never warped from microwaving and food freezes in them just fine," said Elizabeth Appiah, another satisfied Amazon customer.

"Our divided plates with lids make it very easy for people to eat healthier. We have many customers who use them to bring their home cooked meals to work, store for dinner as well as pre-prepared meals. This eliminates the need to have to go eat unhealthy fast food options," said Monika, a company representative.

The BPA-free microwave divided plates with lids from Monika's Marketplace is proving to be a much desired product for shoppers, having racked up mostly 5-star ratings. Currently available on Amazon, each purchase comes with two mini BPA free microwave containers and steam release covers as a bonus.
