

Soulmutts Toronto Offers Premier Dog Care Services in Downtown Toronto

September 04, 2024

TORONTO, ON - September 04, 2024 -
Toronto, ON ? Soulmutts Toronto, a cornerstone of Toronto?s pet care community, is proud to announce its continued dedication to providing comprehensive dog care services that include dog daycare, boarding, walking, and grooming. Located in the heart of Leslieville, Soulmutts has been serving the city?s canine companions since 2008, offering a blend of high-energy, off-leash environments and personalised care that ensures every dog can thrive.

Over the past 15 years, Soulmutts Toronto has distinguished itself through its unique approach to dog care. The company?s philosophy centres around maintaining a close-knit pack, where new dogs are gradually introduced and carefully integrated into the group. This method fosters a harmonious environment where dogs are encouraged to socialise freely and enjoy their time together. At Soulmutts, dogs are given the space to be themselves, running, playing, and resting in a safe and supportive setting.

One of the key features that sets Soulmutts apart is its private, fully customizable play space. Initially

operating in public dog parks, the founders quickly realised the challenges that come with unpredictable environments. To address this, they established a private space exclusively for the dogs under their care. This space, which has evolved over the years, now stands as a state-of-the-art facility that can be adjusted to meet the specific needs of different dogs. Whether it?s a large area for high-energy dogs to run freely, or separate zones for smaller or older dogs to play at their own pace, the flexibility of this environment ensures that every dog can find their comfort zone.

Transportation is another area where Soulmutts leads the industry. The company uses customised Mercedes Benz Sprinter shuttles, specifically designed to offer the ultimate in safety and comfort for dogs. Unlike the retrofitted personal vehicles used by some competitors, these shuttles feature crash-resistant, fully insulated interiors that can be easily sanitised after every outing. Each shuttle is equipped with professional-grade HVAC systems, ensuring even temperature control throughout the vehicle, and advanced security systems that include GPS tracking and mobile engine control. These features guarantee that every dog is transported in a secure, clean, and comfortable environment.

Consistency and trust are at the core of Soulmutts? service model. The company prides itself on its full-time, trained pack leaders who are committed to forming lasting bonds with the dogs in their care. Unlike other services that may rely on part-time workers, Soulmutts ensures that the same pack leaders work with the same dogs every time. This consistency helps build trust, making each walk or daycare session a positive experience where dogs can thrive in a stable, familiar environment. The company?s approach to dog care is not just about exercise; it?s about creating a routine that includes socialisation, skill building, and reinforcement of good behaviour.

Soulmutts Toronto offers a range of additional benefits that make it a top choice for dog owners. With flexible drop-off and pick-up times, operations that run 365 days a year, and the largest private outdoor dog run in downtown Toronto, the company is designed to meet the needs of both dogs and their owners. The facilities include 4,500 square feet of indoor space and 3,500 square feet of outdoor play areas, featuring top-of-the-line custom amenities like solid sealed epoxy flooring and a professional-grade HEPA air filtration system that ensures a clean, odour-free environment.

For those looking for a trusted partner in dog care, Soulmutts Toronto offers an unparalleled level of service. With a convenient Leslieville location, competitive pricing, and a team of experienced and knowledgeable staff, Soulmutts remains dedicated to providing the best possible care for Toronto?s dogs.
