

Brockton Renters and Landlords Can Receive a Mass Save® No-Cost Home Energy Assessment to Identify Energy Savings Opportunities

September 05, 2024

BEDFORD, MA - September 05, 2024 - PRESSADVANTAGE -

Revise, Inc., a top energy efficiency solutions provider, proudly announces an opportunity for Brockton renters and landlords to receive a Mass Save® No-Cost Home Energy Assessment. Revise, Inc. conducts Mass Save® No-Cost Home Energy Assessment in Brockton as a Mass Save® preferred Home Performance Contractor.

Mass Save®'s partnership with CVAB (Cape Verdean Association of Brockton) and the City of Brockton is designed to help Brockton residents identify and implement energy-saving measures that reduce utility usage, enhance home comfort, and promote sustainable living. Thanks to Mass Save®, Revise, Inc. aims to make energy efficiency accessible to all Brockton residents, ensuring that homes are comfortable, cost-effective, and environmentally friendly.

Mass Save® No-Cost Home Energy Assessments, conducted by Revise, Inc., are an integral part of the broader Mass Save® program, which is focused on improving energy efficiency across Massachusetts. These assessments offer homeowners, renters, and even landlords a comprehensive evaluation of their energy use, identifying opportunities for immediate and long-term savings. During the assessment, energy experts from Revise, Inc. can install no-cost energy-saving devices such as programmable thermostats, energy-efficient light bulbs, and smart power strips, helping residents reduce energy consumption from the moment the assessment begins.

One of the significant benefits of participating in Mass Save® No-Cost Home Energy Assessment is access to Mass Save®'s rebates and incentives specifically designed to offset the investment of home energy efficiency improvements. Mass Save® and Revise, Inc. work closely with the City of Brockton and local organizations to ensure Brockton residents are fully informed about Mass Save®'s financial support. These incentives include rebates for insulation, air sealing, and high-efficiency heating and cooling systems. By taking advantage of these offers, homeowners can significantly reduce the upfront costs of making their

homes more energy-efficient, leading to long-term savings on utility expenses.

The Mass Save® No-Cost Home Energy Assessment aims to reduce energy usage and create a more comfortable and sustainable living environment. By improving insulation, sealing drafts, and installing energy-efficient equipment, residents can enjoy a more consistent indoor temperature year-round, reducing the need for constant heating in the winter and cooling in the summer. This enhances comfort and reduces the strain on heating and cooling systems, potentially extending their lifespan and reducing the need for costly repairs.

During the Mass Save® No-Cost Home Energy Assessment, a Revise, Inc. Home Energy Manager will perform a thorough health & safety evaluation and insulation assessment to pinpoint areas where energy efficiency can be improved. This detailed analysis includes examining heating and cooling systems, insulation levels, and potential health and safety concerns related to energy use. By identifying issues such as drafts, inadequate insulation, and outdated heating or cooling systems, the assessment provides a clear roadmap for homeowners to enhance their property's energy performance.

Participation in Mass Save® also contributes to broader community goals for sustainability. By reducing energy consumption and promoting energy-efficient technologies, Brockton residents are helping to reduce the city's overall carbon footprint. This collective effort aligns with the City of Brockton's commitment to environmental stewardship and sustainable living, making it a win-win for the community and the environment.

Mass Save® No-Cost Home Energy Assessments are available to all eligible Brockton residents. To participate, residents can schedule an assessment through Revise, Inc., where a certified home energy manager will thoroughly evaluate the home's energy usage and provide personalized recommendations for improvement. These assessments are an essential first step toward making homes more energy-efficient, reducing utility usage, and contributing to a more sustainable future.

Revise, Inc. is committed to helping Brockton residents achieve greater energy efficiency and home comfort. By partnering with Mass Save® and the City of Brockton, Revise, Inc. is making it easier for residents to access the resources and support they need to create energy-efficient homes.
