

## **West Coast Tire & Services Pioneer Eco-Friendly Auto Repair in San Clemente**

*September 10, 2024*

San Juan Capistrano, CA - September 10, 2024 - PRESSADVANTAGE -

West Coast Tire & Services Announces Auto Repair for San Clemente is now available.

West Coast Tire & Services, based in San Juan Capistrano, California, has announced an exciting new initiative focused on eco-friendly auto repair. The announcement aligns perfectly with the company's ongoing dedication to sustainability and caring for the environment. As a certified Good Year San Clemente Auto Service Center Tire Dealer, West Coast Tire & Services has been offering top-rated car care since 2006.

The company provides an array of services, from auto repair and diesel repair to engine rebuilding, suspension repair, and radiator repair. This new eco-friendly initiative will integrate several practices designed to lessen the environmental impact of these repairs.

Todd, the CEO of West Coast Tire & Services, shared, "We are thrilled to introduce our eco-friendly initiative. Our goal is to provide top-quality auto repair services while also taking steps to protect our

environment. This initiative is a natural extension of our dedication to our community and our planet."

As part of this initiative, the company will use environmentally safe products for repairs and maintenance tasks. They will also implement energy-efficient processes in their workshop to cut down on power consumption. Enhanced recycling programs for used tires, engine oil, and other automotive fluids will ensure responsible disposal and recycling.

West Coast Tire & Services plans to educate their customers on eco-friendly driving habits and maintenance tips. They will share information on how to reduce vehicle emissions and improve fuel efficiency.

Another key aspect of this initiative includes the introduction of services for hybrid and electric vehicles. Their ASE (Automotive Service Excellence) certified technicians have received specialized training to work on these types of vehicles, meeting the increasing demand for eco-friendly transportation options.

In addition to auto repair services, West Coast Tire & Services offers factory maintenance schedules at competitive prices. As a certified Goodyear Service Center, they provide the benefits of being part of an established national organization. With this new eco-friendly initiative, they aim to offer the same high-quality services while making a positive impact on the environment.

The tire repair services will also incorporate eco-friendly products, reinforcing their commitment to sustainability. Customers can expect the same level of dedication and professionalism from West Coast Tire & Services, with the added satisfaction of knowing their repairs are done in an eco-friendly manner. Their website will feature a new section dedicated to these eco-friendly practices and customer tips.

"We believe that every small step counts when it comes to protecting our environment," said Todd. "Our new eco-friendly initiative is a step in the right direction, and we are proud to lead the way in eco-friendly auto repair."

West Coast Tire & Services is known for honest and professional automotive repair and maintenance care. They continue to offer financing options and work with extended warranties. Their state-of-the-art dealer-level diagnostic equipment, combined with the skills of their ASE certified technicians, ensures that customers always receive top-quality service.

By introducing services for hybrid and electric vehicles, West Coast Tire & Services is not only catering to current automotive market demands but is also preparing for the future of transportation. This approach underlines their commitment to innovation and sustainability in the auto repair industry.

To learn more about West Coast Tire & Services and their new eco-friendly initiative, visit their website. The site provides details on their services and efforts to make a positive difference in the community.

West Coast Tire & Services is setting an example for an eco-friendly future in auto repair. Their efforts combine superior services with a firm commitment to sustainability, reflecting a broader shift towards environmentally responsible business practices. More information about their comprehensive services, including auto repair, diesel repair, engine rebuilding, and suspension repair, can also be found on their website.
