

Maryland Plastic Surgeon to Host U.S. Open Tennis-Themed ?Incredible Injectables? Medspa Event Featuring Grand Slam Discounts

September 12, 2024

September 12, 2024 - PRESSADVANTAGE -

Hagerstown, MD?Dr. Henry F. Garazo and the aesthetics team at Plastic Surgery Services are excited to announce the return of their much-anticipated ?Incredible Injectables? fall event on Thursday, September 26, 2024, from 9 a.m. to 6 p.m. at the Hagerstown plastic surgery office. This year?s theme, ?U.S. Open Tennis,? invites patients to serve up a refreshed look and ace their beauty goals by taking advantage of the best deals of the season on injectables, skincare treatments, and products.

?We look forward to hosting our ?Incredible Injectables? events all year long. These events give us the unique opportunity to celebrate with the people in our community and thank our patients for their continued trust in us with special pricing on premier injectables and services,? says board-certified Frederick plastic surgeon Dr. Henry Garazo. ?We chose this year?s U.S. Open Tennis theme to reflect our commitment to helping everyone feel like a champion in their own skin, with personalized treatments that achieve natural, stunning results.?

For one day only, new and existing patients can enjoy unbeatable pricing on some of the most popular injectables and skincare treatments, including BOTOX®, Juvéderm® Vollure® XC, Juvéderm® Volbella® XC, Juvéderm® Voluma® XC, Juvéderm® Ultra Plus XC, Juvéderm® Ultra XC, and more. Patients can also score big on exclusive discounts for physician-only skincare products and advanced skincare treatments that the highly experienced aesthetics team tailors to each skin type and skin concern to deliver a winning glow.

Aside from being able to purchase premium treatments at prices that are unmatched, patients who choose Plastic Surgery Services for their cosmetic injectables have the added advantage of having a board-certified plastic surgeon administer their injections. While it's typical for nurse or physician assistant injectors to perform injections at other aesthetic practices and medspas, Dr. Garazo personally performs all injectable treatments at the Hagerstown medspa and plastic surgery practice. His extensive training and deep understanding of facial anatomy allow him to customize each treatment, delivering natural-looking results that enhance a patient's unique features and avoid tell-tale signs of having work done.

Dr. Garazo noted, "Although Botox and filler injections are done in minutes and provide near-immediate results, knowing what product to use, the right amount to inject, and where it should be placed for ideal results is highly nuanced. As a board-certified plastic surgeon who has performed cosmetic injectables for decades, I make sure that every patient receives the highest standard of care and achieves beautifully harmonious results. Non-surgical treatments, especially injectables, deserve as much precision and attention to detail as surgical procedures require."

Event attendees will also have the chance to swing by for raffles, win door prizes, and enjoy giveaways throughout the day. And for those who can't make it in person, there's no need to forfeit the match—patients can call between 9 a.m. and 6 p.m. on the day of the event to prepay for treatments and skincare products and lock in the best savings of the year.

This year, the practice is excited to introduce All? payment plans by Cherry, helping patients stay in the game with more flexibility to finance their favorite treatments without impacting their credit scores. Thanks to Cherry's flexible payment options, patients can get treated today and pay over time; simply apply with no credit impact and split payments into manageable monthly installments.

Residents of Hagerstown, MD, and surrounding areas—including Frederick, MD; Martinsburg, WV; Harpers Ferry, WV; Gettysburg, PA; Chambersburg, PA; and along the I-70 and I-81 corridors—are invited to join us courtside and advance to the next round with premium care. Those interested in learning more about the products and services offered at this season's "Incredible Injectables" event are invited to visit the website,

follow Dr. Henry Garazo on social media, or call the practice directly.
