

Mountaintop Web Design Unveils New Tiered Managed WordPress Care Plans for Seamless Website Maintenance

September 19, 2024

GREENWOOD VILLAGE, CO - September 19, 2024 - PRESSADVANTAGE -

Mountaintop Web Design has announced the launch of its tiered Managed WordPress Care Plans. These plans aim to help businesses maintain secure, up-to-date, and smooth websites. They cater to different needs with three service levels: Pikes Peak, Mt. Denali, and Mt. Everest.

Josiah Bussing, CEO of Mountaintop Web Design, shared the motivation behind these new offerings. "Our Managed WordPress Care Plans are designed to take the stress out of maintaining a business website. Regular updates, security checks, and daily backups are necessary for any website, but they can be time-consuming. We aim to provide peace of mind and let companies focus on their core activities."

Each Managed WordPress Care Plan includes features to ensure a site stays functional and optimized. All plans cover WordPress core and plugin updates, cloud-stored daily backups, and regular performance checks. This approach helps capture every change and protect the site from potential risks.

The plans?Pikes Peak, Mt. Denali, and Mt. Everest?are structured to meet various business needs. The main

differences are in the level of support and range of services provided. While all plans offer basic maintenance and security functions, the higher-tiered plans include more features like detailed monthly maintenance reports, better customer support, and extra optimization services.

The service plans also emphasize proactive website management. Websites that aren't managed can suffer from security issues, slower loading times, and could even face penalties from search engines due to outdated content. Regular updates and backups, which are part of all Managed WordPress Care Plans, help prevent these problems.

Mountaintop Web Design specializes in creating strategically crafted websites that are designed to help businesses grow. Their website design services ensure that businesses not only have a functional site but one that is aesthetically pleasing and user-friendly.

A recent review from Melinda Bridgman highlighted the real-world impact of Mountaintop Web Design's services. She praised the company for their attention to detail and prompt support. "Their team made my website more secure and much faster. These care plans are a must for anyone serious about their online presence," Bridgman said.

Each plan provides monthly support hours to handle any issues that come up. For businesses needing more extensive support, higher-tier plans offer more flexibility and additional time. This makes sure every website under the company's care stays problem-free and performs well.

Mountaintop Web Design also offers an integrated hosting service that works seamlessly with the care plans. This integrated approach makes website management easier for clients, giving them a single solution for both hosting and maintenance. The result is less downtime, better performance, and fewer administrative hassles.

The company also excels in local search optimization, SEO, and pay-per-click advertising. These services help businesses improve their visibility in local search results, optimize their website's content and structure for better search engine ranking, and manage paid advertising campaigns efficiently.

All Managed WordPress Care Plans also include advanced security measures. This includes constant monitoring for security threats so immediate action can be taken if any issues are detected. Other benefits include spam cleanup, database optimization, and real-time performance tracking. These services help a business's online presence stay in top shape and ready to serve its audience effectively.

"Websites are the face of a business today, and they need constant attention to stay functional and secure," Bussing added. "With our Managed WordPress Care Plans, we aim to provide our clients with an all-encompassing solution to take care of their websites so they don't have to."

Potential clients interested in these services can get started by scheduling a free consultation. During the consultation, Mountaintop Web Design's team assesses the specific needs and challenges faced by the business and provides a tailored plan to address those requirements effectively.

More information about the Managed WordPress Care Plans can be found at the Mountaintop Web Design website.

To get started, contact them directly through their official page. The company's detailed offerings, along with their commitment to quality service, make them a strong choice for businesses seeking reliable and comprehensive website care solutions.
