K9 Basics To Offer Classes For Teaching Dogs Cool New Tricks

January 13, 2016

January 13, 2016 - PRESSADVANTAGE -

K9 Basics Dog Training, a business in Marlton, NJ, has announced that it will offer classes on teaching dogs cool new tricks. This will be above and beyond their standard obedience training and aggressive dog training in NJ. These classes are based on the fact that dog tricks are fun, both for the owner and for the animal. The dates and times for the class are yet to be announced, and further information will be made available on the company's Facebook page.

Brian Berg from K9 Basics Dog Training says: "We are very excited about our upcoming class to teach your dogs - old and new - tricks. We really are the best dog trainers in New Jersey, and our existing programs are designed to teach dogs to behave regardless of distractions. Tricks are just another way to introduce something fun, and increase the companionship between you and your dog."

The company's website currently lists the various training services that they offer. By far their most popular type of training is dog obedience training. This training is designed to be completed when a dog is out of the 'excited stage', which means it is far more receptive to actually learning. The website also clearly lists the various upcoming events that the obedience school is organizing. Dates have already been set for the

advanced pack socialization class and for the treadmill training classes.

Dog owners can also opt for a concentrated Board and Train program that lasts for three weeks. This fast-track option is ideal for those who live at a distance, or who don't currently have additional time to devote to the pet. Contact the company directly to make arrangements to join this program.

The company is also releasing a number of dog trick videos. These videos have been designed to show people some of the tricks that their dogs will be able to learn during the classes. It clearly demonstrates how these are different from the commands that dogs learn during regular obedience classes. The tricks that the dogs will learn are activities that the animal will really enjoy doing, not just because of the praise it will get in return. For dog owners, it is particularly nice to be able to show off the special bond they have with their trusty companion.

People are encouraged to follow the company's Facebook page and website to be kept up to date with when the class will be held and to be able to secure a place.
