

Centre Vitalab Offers Comprehensive STI/STD Screening in Montreal

October 04, 2024

October 04, 2024 -

Montreal, QC ? Centre Vitalab, a trusted private medical laboratory in Montreal, is pleased to introduce its Advanced STI/STD Screening service, offering Montreal residents a convenient and confidential way to test for common sexually transmitted infections. Available at all Centre Vitalab locations, this screening service covers gonorrhoea, chlamydia, syphilis, and HIV, providing patients with quick, reliable results that help them manage their health with ease.

Since its founding in 2018, Centre Vitalab has been committed to making essential healthcare services more accessible and convenient. The introduction of Advanced STI/STD Screening reflects the laboratory?s ongoing mission to offer services that prioritise patient convenience, accuracy, and privacy.

?At Centre Vitalab, we believe that fast, reliable testing is essential for sexual health,? said Dr. Jacob A., Family Doctor at Centre Vitalab. ?Our Advanced STI/STD Screening gives patients the opportunity to take control of their health in a private and comfortable environment, with rapid results to help minimise stress.?

The service is designed to make the testing process straightforward and convenient for patients. Appointments take approximately 15 minutes, during which the necessary samples are collected and sent for testing. With results typically available within 24 hours, patients can quickly access important information about their health without long waiting periods. The rapid turnaround for results helps ensure that any follow-up care, if needed, can be addressed promptly.

For added flexibility, patients can book appointments online, by phone, or via email, with walk-in testing also available at all Centre Vitalab locations. The laboratory?s emphasis on patient privacy is a key aspect of the service, with results delivered directly to patients in a confidential manner. Should any follow-up be necessary, patients will be contacted by one of the healthcare professionals at Centre Vitalab to discuss further steps.

?Our goal is to make the process as seamless as possible,? added Dr. Jacob A. ?From booking the appointment to receiving results, we aim to create an experience that makes it easy for patients to stay informed about their health.?

The Advanced STI/STD Screening is priced at $219, tax included, and offers significant value with its combination of testing and follow-up care. The service is also covered by private and work insurance programs, helping patients manage the cost. Insurance receipts are provided, making reimbursement straightforward and simple. While not covered by public insurance programs like RAMQ, the lab?s collaboration with private insurers ensures that the service remains accessible to a wide range of patients.

Beyond the Advanced STI/STD Screening, Centre Vitalab offers a variety of diagnostic services that cater to the diverse healthcare needs of Montreal residents. With flexible scheduling and a focus on efficiency, the lab continues to be a go-to destination for patients looking for high-quality care without the long wait times often associated with other healthcare facilities.

?At Centre Vitalab, we focus on making healthcare easy to access and simple to navigate,? Dr. Jacob A. concluded. ?By offering services like Advanced STI/STD Screening, we?re helping patients stay on top of their health without unnecessary complications or delays.?
