

AZ Wound & Hyperbaric Medicine Acquires Abrazzo North Phoenix Clinic, Expanding Advanced Wound Care Services

October 22, 2024

October 22, 2024 - PRESSADVANTAGE -

AZ Wound & Hyperbaric Medicine, a leading provider of specialized wound care, has broadened its presence in Arizona by acquiring the Abrazzo North Phoenix Wound Clinic. This acquisition marks AZ Wound's fourth location in the region, allowing it to continue providing advanced wound care with a focus on personalized and patient-centered treatment.

AZ Wound & Hyperbaric Medicine representative Nathan Wagner expressed the company's excitement about the expansion. "This acquisition allows us to extend our reach and offer North Phoenix residents access to our high-quality, patient-focused wound care. We're excited to incorporate the advanced facilities at the Abrazzo North Phoenix location and continue improving patient outcomes," he remarked.

With the new clinic, AZ Wound broadens its services, including wound care, hyperbaric oxygen therapy (HBOT), and treatments for issues related to radiation injuries. The clinic features modern hyperbaric oxygen

chambers, essential for helping patients recover from chronic and acute wounds using HBOT. This treatment is especially useful for conditions like diabetic foot ulcers, severe burns, and non-healing radiation injuries. Those interested in learning more about HBOT to treat radiation injury can visit AZ Wound's website at azwound.com.

Phoenix Magazine has recognized Dr. Yadwinder Dhillon as a 'Top Doc' in Wound Care each year since 2018, and he remains central to the company. His leadership highlights AZ Wound & Hyperbaric Medicine's dedication to blending technological advances with compassionate care. Guided by Dr. Dhillon, the company continues to lead in wound care, using modern techniques and treatments to achieve the best outcomes for patients.

AZ Wound strives to offer comprehensive care that addresses the side effects of radiation therapy and issues arising from cranial radiation. The clinic's specialists develop personalized treatment plans based on individual patient needs, ensuring the care is suitable for conditions like pressure ulcers, surgical wounds, and trauma.

Located in North Phoenix, AZ Wound & Hyperbaric Medicine North Phoenix takes a holistic approach, focusing on both treatment and education. This new clinic, at 3811 E. Bell Rd, Suite 103, Phoenix, AZ 85032, is part of a strategic expansion highlighting the company's commitment to providing advanced, accessible wound care solutions. For more details about their services and the location, visit AZ Wound North Phoenix on their website.

At the North Phoenix location, AZ Wound & Hyperbaric Medicine continues to be known for combining compassionate care with innovative technology. This dedication is evident in the variety of services offered, including hyperbaric oxygen therapy, which has been effective for conditions that haven't responded to traditional methods. Those seeking more information about the company's services and locations are encouraged to check out AZ Wound's LinkedIn page or their official website.

As AZ Wound & Hyperbaric Medicine grows within Arizona, the focus remains on improving patient care and quality of life. Through innovation and expansion, the company adheres to its core principles of providing personalized wound care solutions with compassion and precision.

AZ Wound & Hyperbaric Medicine invites healthcare providers and community members to visit the new North Phoenix clinic to experience its comprehensive care and advanced treatments. The team's expertise and dedication will strengthen AZ Wound's reputation as a leader in wound care in Arizona and beyond.

Nathan Wagner concluded by saying, "Our expansion into North Phoenix represents a commitment to making quality wound care readily available to more individuals in our state. We look forward to continuously

innovating and expanding our practices to meet the evolving needs of our patients."

For those seeking detailed information or expert guidance on wound care services, AZ Wound & Hyperbaric Medicine encourages visits to its locations and inquiries through its digital platforms. Acquiring the Abrazzo North Phoenix Wound Clinic marks not just growth but also continues the commitment to patient-focused healthcare in Arizona.
