

Ministry-To-Children Unveils New Guide on Bible Verses About Children to Aid Spiritual Education

September 30, 2024

Sellersburg, Indiana - September 30, 2024 -
Ministry-To-Children has just launched a new comprehensive guide on Bible Verses About Children. This guide dives deep into scriptures that emphasize the importance of children in Christianity. It looks at both the Old and New Testament, covering topics like children as blessings, parental responsibilities, and Jesus's teachings about children.

Tony Kummer founded Ministry-To-Children in 2007. Since then, the website has become a go-to resource for churches around the world. It offers free Bible-based materials for children's ministry, catering to various denominations and church sizes. Their offerings include Bible lessons, craft activities, coloring pages, children's ministry curriculum, and kids' Bible lessons available as downloadable PDFs.

The new guide to Bible Verses on Children is organized into different sections. It starts with key verses that describe children as blessings. After that, it discusses what the Bible says about the responsibilities of parents and caregivers. This section provides a deep look at how scripture views the upbringing and care of

children. The guide also goes into Jesus's teachings about children, showing the value He placed on them and how His teachings can be applied to modern-day parenting and ministry.

Tony Kummer, the founder and editor of Ministry-To-Children, talked about the importance of this new guide. "The Bible Verses on Children guide is designed to offer church leaders, Sunday School teachers, and parents a comprehensive resource for understanding the scriptural basis for children's ministry," Kummer said. "By compiling these scriptures into one accessible guide, we hope to make the teachings more approachable for anyone involved in the spiritual education of children."

A key feature of the guide is its focus on theological aspects. It explores the idea of childlike faith, giving historical context for the Bible's view of children and practical applications for today. The guide doesn't shy away from challenging verses about discipline, offering detailed interpretations that fit within broader scriptural teachings.

The guide also lists frequently quoted scriptures about children, including Luke 18:16, Mark 9:37, and Matthew 18:10. It highlights children in the Bible who served as role models of faith, like David, Josiah, and Miriam. These examples aim to inspire and guide those teaching and nurturing children's faith.

Kummer further explained, "The inclusion of historical and theological context is intended to help our readers better understand the significance and application of these scriptures. Our goal is to provide a well-rounded resource that can be used in various teaching settings, from Sunday School classes to family devotionals."

Alongside the guide, Ministry-To-Children offers links to related resources like Sunday School curriculum modules, extra Bible lessons, and more children's ministry materials. The website also has a section for readers to leave comments and feedback, creating an interactive community of educators and parents focused on children's spiritual growth.

Ministry-To-Children has also started a new initiative through its sister site, Kids Bible Lessons. This initiative aims to make memorizing short Bible verses fun for kids. It offers 52 short memory verses to help instill divine truths in young minds. The initiative includes resources like Bible study lesson plans, crafts, interactive games, and coloring activities. These tools are valuable for parents and Sunday School educators, providing ways to weave scripture verses for kids into daily teaching and conversations.
