Chapter 2 Incorporated Marks 51 Years of Excellence in Workholding and Fixtures for CNC Machining Success

October 04, 2024

LAKE MILLS, WI - October 04, 2024 -
Chapter 2 Incorporated is celebrating a big milestone?51 years in the business. This anniversary marks a significant achievement for the CNC machining company. George and Marilyn Lohman founded the company in 1973, starting as a small tool and die shop. Since then, Chapter 2 has expanded into a full-scale contract manufacturer. The company offers a range of services, including Precision CNC Machining, Fabrication & Assembly, Custom Engineered Solutions, and Industrial Painting & Finishing. Its commitment to quality management and customer satisfaction is underscored by its ISO 9001:2015 certification.

At the heart of what Chapter 2 does is precision CNC machining. The company is skilled in turning, milling, and prototyping, employing advanced computer numerical control machines. These methods allow them to produce precise parts and components essential to different industries. Additionally, Chapter 2 offers custom-engineered solutions like custom machine building, tool and die, and workholding fixtures. These fixtures are key in ensuring workpieces stay stable during machining operations, helping to boost accuracy and efficiency.

Beyond machining, Chapter 2 provides comprehensive fabrication and assembly services. This includes

putting together various parts to create a complete end-product. They also offer welding services, which allow for joining materials by melting and fusing them. The company further enhances industrial equipment by providing industrial painting and finishing services, improving both appearance and durability.

Chapter 2's project portfolio is diverse, featuring work like automation integration for power equipment, gearbox assembly, and creating retail signs and displays. The company serves a wide array of industries including lawn and garden, medical equipment, automotive, military, construction, agriculture, food packaging, and renewable energy. This diversity highlights Chapter 2's wide-ranging capabilities and expertise.

Reflecting on the company's successes and history, company representative Kyle Johnston expressed gratitude. "Fifty-one years is a testament to our team's dedication and our clients' trust in us," Johnston stated. "Every project and partnership has shaped us into who we are today."

Looking to the future, Chapter 2 is set on advancing through technology and innovation. The company recently acquired a second FANUC Robot and new Doosan turning machines. This move showcases their aim to improve production capabilities and efficiency. They keep on top of automation advances to meet client demands, making sure Chapter 2 remains a leader in the manufacturing sector.

Chapter 2 offers more than just services. They invite clients on factory tours and have a valuable collection of blog posts. These blogs offer insights into issues like automation potential for businesses and distinguishing between CNC turning and CNC milling. Such resources help clients grasp the details of manufacturing, reinforcing Chapter 2's status as a reliable industry partner.

Their website, https://www.chap2.com/, is a comprehensive resource where you can find detailed information about their services. Visitors can request quotes, see their projects, and easily access contact information for collaboration or inquiries.

As Chapter 2 celebrates its milestone anniversary, the company looks back on past successes while concentrating on future growth and innovation. With over 50 years of experience, Chapter 2 is well-positioned to keep delivering quality services to many industries, maintaining its status as a trusted partner in precision manufacturing for future years.
