Portland, OR - Tonys Roofing, a leading provider of comprehensive roofing solutions in Portland, is excited to announce its redefining roof replacement with quality and customer-centric service. Known for their commitment to quality, consistent client communication, and exceptional service delivery, Tonys Roofing has built a strong reputation for roof replacements throughout Portland and the surrounding areas.

A recent client, John Witthauer, shared his experience with the company: "I worked with Erick Uzusa for the quote and coordination. I received three bids and Tony's quote matched a competitor almost to the dollar. What they offered that tipped the scales in their favor was a 50 year warranty on the roof materials and a 12 year labor warranty which exceeded the other quote by 20 years and 7 years. They use Malarkey shingles which after exhaustive research I feel provides the best value to performance. I put down the down payment and they have me scheduled two weeks out. They arrived on a Monday and finished my 3000+ sq ft roof in two days. They kept everything extremely tidy and other than the beautiful new roof, you would never know that they were there. Only after completing the job did they ask for the remainder of the payment. It isn't often that you can say that a company deserves a five star + rating but Tony's does. They will be roofing my

second house in 3 weeks and I have no doubt that they will over perform there as well."
