

Go Industries Inc. Launches Innovative Mile Marker SEC15 Winch Perfect for Off-Road Enthusiasts

November 05, 2024

Richardson, TX - November 05, 2024 - PRESSADVANTAGE -

Go Industries Inc. is excited to announce the launch of its newest product, the Mile Marker SEC15 winch. This small but mighty winch packs a powerful pulling strength of 15,000 pounds, making it a great choice for Jeep, truck, and SUV fans. It includes a 6.8 HP series wound motor and marine-grade remote control connectors, which boosts its reliability when dealing with tough terrains. Buyers can choose between two winch versions; one comes with a 79-foot steel cable and roller fairlead, while the other includes a 72-foot synthetic rope paired with an anodized aluminum hawse fairlead. These features are perfect for those who enjoy demanding off-road adventures. Learn more about these features by visiting the Go Industries website.

Introducing the Mile Marker SEC15 premium winch highlights Go Industries' ongoing commitment to innovation and quality in custom manufacturing and truck accessory services. This winch stands out by blending high pulling power with a lighter weight, reducing its mass by 25% compared to similar models. Weighing in at 63 to 85 pounds, this winch offers full-size trucks the pulling strength they need without burdening the vehicle's front end with extra weight.

A spokesperson for Go Industries shared, "The Mile Marker SEC15 winch shows our dedication to creating products that combine performance with ease of use. We're focused on offering reliable equipment that meets our customers' needs for both work and leisure."

The SEC15 winch is packed with features. Built with all-metal, 3-stage planetary gear sets, it promises durability. Additionally, its submersible design protects it against water, mud, and snow. A 400 Amp solenoid, automatic load-holding brake, and corrosion-resistant stainless-steel fasteners add to its rugged capabilities.

For those who frequently tackle off-road trails, the SEC15 winch presents itself as a dependable tool. It offers convenient features like a handheld remote control with a 12-foot cord, and a 3" x 15' recovery strap for extra utility. Customers can choose between a roller fairlead or an aluminum hawse fairlead, essential for facing off-road challenges with confidence and performance.

"Our goal with the Mile Marker SEC15 premium winch is to set a high standard, providing a product capable of handling extreme conditions while promising dependable service," the spokesperson further explained.

Go Industries has been meeting customer needs since it was established in 1978 in Richardson, Texas. They specialize in truck products, law enforcement gear, and custom manufacturing, earning a reputation for putting customers first and offering top-quality items. Go Industries provides detailed information on their wide range of truck accessories, law enforcement vehicle equipment, and custom manufacturing solutions on their company website. The Mile Marker SEC15 winch serves as evidence of the company's continual push for innovation in offering valuable solutions to its clients.

In its efforts to connect with customers, Go Industries provides numerous resources on its website, including product manuals, detailed descriptions, and warranty information. They've also embraced modern payment methods, accepting cryptocurrencies for transactions, making purchases more flexible.

This new winch reinforces Go Industries' dedication to providing robust, high-performance accessories suited for all types of vehicles. With the Mile Marker SEC15 winch, the company expands its lineup of products that are built to last, functional, and forward-thinking. Those interested can find more details on the Mile Marker SEC15 Winch and the Mile Marker SEC15 premium winch by visiting the Go Industries website. These offerings reflect the company's vision of delivering products that meet customer demands while inspiring confidence and satisfaction across various operating environments.
