"We understand the challenges small churches face when it comes to sourcing reliable and dynamic teaching materials," said Tony Kummer, editor of Sunday School Works. "By offering high-quality, free Sunday School lessons, we aim to make it easier for churches to provide valuable Bible teaching to children without worrying about additional expenses."

These free Sunday School lessons are designed to match the church lectionary calendar and can be downloaded every Tuesday. They come with activities like craft projects, games, and object lessons, all intended to make Scripture enjoyable and easy to understand for kids. These lessons are specifically tailored for different age groups, helping churches teach Bible stories and messages effectively, no matter their size or budget. By including elements such as Bible verses and scripture quotes, they help young learners gain a deeper understanding. Check out their website for examples of these lessons in practice.

Along with the lessons, Sunday School Works gives teachers colorful and engaging materials like coloring pages that tie directly to the Bible stories being taught. lessons in Sunday School has helped promote an interactive learning environment.

"Supporting transformational learning and growth among children is at the heart of what we do," remarked Kummer. "It's incredibly rewarding to see how simple tools like coloring pages and object lessons can have a profound impact on a child's spiritual journey."

Sunday School Works! also offers resources specifically for preschool Sunday School. These resources are tailored for the youngest learners, focusing on age-appropriate stories and activities and encouraging early engagement with the Bible. Explore their preschool resources on their website.
