St. Saviours, United Kingdom - Bodi Hut?s quick dry microfiber towel has been highlighted on the blog, GoldenDaysHealth.com with a video from a guest blogger sharing her love for her new gym towel. GoldenDaysHealth is a blog that focuses on health, nutrition, food and product recommendations.

GoldenDaysHealth.com, invited guest blogger Monika W, to share her plans for her New Year?s resolution. Her blog post highlights the fact that her New Year?s resolution is to lose weight (which seemed to be a common resolution for her each year). With this in mind she has made some lifestyle changes, and one of them is exercising at the gym.

?One thing that I?ve done is I go to the gym 6 days a week,? said Monika.

The problem that Monika was experiencing was that her current gym towel is also her bath towel ? large and takes forever to dry. But upon seeing someone else using a microfiber gym towel, she asked this person for

more information.

She goes on to state that, ?I normally go before work, so I have to shower at the gym. I use to take my regular bath towel, until I saw someone else at the gym with this really neat quick dry towel so I asked her about it.?

After Monika received her towel from Amazon.com, she created a video showing not only the quality of the towel but also some of the key benefits ? it folds small, expands large and dries fast ? everything one would look for in a travel towel.

?We love this video, it is a great way to show the size of the towel ? many people don?t believe that the towel can fold that small and expand so large,? said Shane a company representative for Bodi Hut, a top retailer on Amazon.

Bodi Hut?s microfiber quick dry towel is available on Amazon.com in a variety of different colors and is currently on sale for the New Year.
