Cape Coral, FL business Phoenix Treasures LLC is happy to announce that their stainless steel and borosilicate glass French style coffee press is receiving rave reviews. Due to the large number of positive reviews, orders have also started to increase. The company has increased its stock so that there will not be a shortage of units. The product is available through <http://www.phoenixtreasuresllc.com/>.

Robert King from Phoenix Treasures LLC says: "We love coffee and we want to share our love and passion with the world. We're very happy to see that people are loving our French style coffee press, so much so in fact that we nearly sold out. We have increased our stock again so nobody has to go without."

The coffee press is designed to deliver the best possible flavor and smooth taste. The double screen system ensures that no coffee grounds are left in someone's cup after pouring. The product also comes with two extra screens, meaning people can enjoy ground-free coffee for many years. Additionally, the borosilicate glass means that there is no danger of the glass breaking at any point, as the glass is fully heat resistant. The stainless steel design ensures the coffee press looks beautiful as well.

The number of positive reviews is increasing daily, as can be seen at <http://www.amazon.com/Phoenix-H601L-Stainless-Borosilicate-Aromatic/dp/B010U4EL0U>. "I have never owned a French Press, let alone used one," says June Bug. "But I have always wanted one. I love coffee. It is my lifeline, my blood. As someone once told me, if you want the best cup of coffee you have ever had, with rich, bold flavors, you need to have a cup of coffee from a French Press. Well, that person wasn't lying, and this French Press delivers that deep, bold, rich flavor you would expect to find in a small Parisian cafe."

The company also encourages everybody to give them a Like on Facebook at <https://www.facebook.com/Phoenix-Treasures-LLC-460358727476897>.
