

Sunflower Spa to Host 19th Anniversary Celebration Marking Industry Experience

October 15, 2024

Longmont, Colorado - October 15, 2024 - PRESSADVANTAGE -

Longmont, CO ? Sunflower Spa has announced they are marking its 19th anniversary celebration on Wednesday, October 23. The anniversary marks almost two decades of immense industry experience and is a cause for excitement and celebration at such an achievement in tenure amongst the staff at Sunflower Spa. With its experience and commitment to care, Sunflower Spa distinguishes itself as a premier medical aesthetics establishment in the Longmont community.

?We are so thrilled and honored to be able to mark 19 years of business,? said practice owner Patrice vonMetzger. ?We could not have done it without the support of our community in Longmont, who have made us so welcome and been part of the reason we?ve been able to offer so many advanced treatments and innovate within the industry.?

The event will run from 5-7 pm at the practice. Attendees will receive one raffle ticket and will be able to earn more entries based on their purchases and if they bring a friend. The spa has been bringing on a new membership structure that will offer patients new ways to save. Refreshments will be available throughout the night, and those who purchase anything through the new Sunflower Spa app on the night will also receive 19% off.

Additionally, practitioners will be performing demonstrations of various high-volume services that are a staple of the spa. These demonstrations will include IV infusions, Hydrafacials, Genius RF microneedling, lash extensions, and Jouveau lip flips.

?It?s such an exciting time for us,? said vonMetzger. ?With the release of our app and our new membership structure, we?ve only been growing and growing. We wanted to give back to our loyal patients and introduce the app at such a momentous event for Sunflower Spa. It?s easier for patients to make and book their appointments while reaping the rewards of their memberships, all while saving.?

The event is a big occasion for Sunflower Spa, as many medical spas do not get to mark such large anniversaries. The celebration signifies the strength of the practice's tenure in Longmont, made possible in no small part by the spa's commitment to continuous growth and improvement. Recent developments at the spa include the introduction of Semaglutide for medical weight loss and a new radio frequency microneedling device, both advanced treatments that are highly desirable in the world of medical aesthetics.

"We've always stood out with our dedication to our patients," said vonMetzger. "That means looking at the forefront of the industry to bring patients not just what they want to see but what they will truly utilize and find improves their quality of life. That starts with confidence, and building up that individual confidence is what every practitioner at Sunflower Spa is highly qualified to do. It's why we always look for the best, what's been studied: that mix of natural and state-of-the-art is what keeps our patients coming back. It's what we've found works the best, too!"

Sunflower Spa is open and taking appointments for new and existing patients.

About Sunflower Spa

Sunflower Spa Injectables and Medical Aesthetics has been Longmont's premier aesthetics spa since 2005. Offering treatments and services at the intersection of science, technology, and medicine, Sunflower Spa offers cutting-edge skin care to Longmont residents with a focus on rejuvenation and wellness, featuring treatments like IV drips, relaxing massages, medical weight loss, and skin-reviving services like Hydrafacial® among others.
