Renowned hip hop dance teacher Mikey Castro has recently announced that he will be offering dance classes in Boise, Idaho. To better introduce himself to his market, he has also released a new video on his YouTube channel at www.youtube.com/Mik3yCastr0, which showcase the various dance opportunities that he has had. He looks forward to teach more people the art of hip hop dancing.

"I can teach anyone how to dance," says Mikey himself. "They just have to be willing to trust me and my antics."

Mikey is not just anyone who teaches hip hop dance. Rather, he is someone with many years of experience. Additionally, he is one of the recognized instructors with Elevate Dance Project. Their mission is to ensure dance education is of the highest possible quality for children and adults alike, while also giving choreographers a chance to build up their abilities, creativity and leadership.

Mikey joins in the vision of Elevated Dance Project to unleash the infinite possibilities each individual has. "We hope to communicate this, and the essence of dance, through the quality of training provided, and the caring manner in which it is delivered," says a spokesperson for the Elevated Dance Project.

As a renowned hip hop dance instructor, Mikey aims to give high quality education to all his students. He will be providing instruction to people of all ages, either as general classes or as part of event choreography. His YouTube channel highlights a number of examples of dances he has choreographed in the past, which include a number of world famous songs and dances.

"For me, it is all about passion," explains Mikey. "Hip Hop is has been around since the 1970s when it became part of a special subculture. Since then, it has become far more mainstream but it retains that cultural heritage of African-American communities. To be able to share this with my students is a dream come true."

People are encouraged to contact Mikey Castro as soon as possible if they are interested in joining one of his hip hop classes and join in the above-mentioned movement.
