

Consumers Comfort Announces Furnace Rental Services In Toronto

January 19, 2016

January 19, 2016 - PRESSADVANTAGE -

Consumers Comfort, a Vaughan, Ontario based company, has announced a new rental and finance program for residential HVAC equipment. The new programs are offered with no down payment, as well as a number of other benefits.

Edgar Brown, spokesperson for the company, states, "We are proud to announce this new program that will make it easier for homeowners to get the HVAC equipment that they need to keep their homes comfortable in all seasons."

The rental and finance programs come with no down payment as well as free installation of equipment, free maintenance, free replacement warranties in case the equipment is not repairable, and a no credit check rental option provided the customer is the owner of the home in question.

"Furnace rental is a great way for homeowners to save money," Brown states. "If you prefer not to rent, our finance option is also very economical, and we can work with you to ensure that payments are well within your allotted budget. In most cases it's fully offset by energy savings."

Brown explains that the company decided to offer HVAC rentals as a means of helping homeowners who could not afford to completely replace their HVAC systems, which can cost several thousand dollars when purchased outright. He states that the company will work with homeowners to determine which option, renting or financing, will work best with their unique financial situation. He says that the goal of Consumers Comfort Inc is to ensure that all homeowners in the area have the heating and cooling that they need for optimal comfort during the most severe weather months of the year.

Consumers Comfort has been providing homeowners in the Toronto region with HVAC services for many years. Their newly implemented rental and financing programs are designed to provide consumers with a more comfortable way of obtaining the heating and cooling that they need when their existing system stops working or when they are building a new home.

More about the company, including a complete list of the services that they provide and their chosen manufacturers can be seen on their official website www.ConsumersComfort.com. A listing of their service areas is also provided on the site.
