Modesto Weight Loss Clinic Announces New Location

January 20, 2016

January 20, 2016 - PRESSADVANTAGE -

Medallion Weight Loss, a clinic based in Modesto, California, has announced that they have recently moved to a new and updated location. The weight loss clinic is now located at 2209 Coffee Road, Modesto CA 95355.

According to Dr. Backert with the clinic, they are also "the most reviewed in Modesto, CA and have the highest ratings in service in a recent online poll." Dr. Backert states that they have helped numerous people with their weight loss goals and continue to offer guidance as well as specific plans customized to each individual.

The clinic's core principles and what make them different from others, according to Dr. Backert are the fact that "Diet Plans are personalized to each person, and coaching is one on one and not in a group setting."

Patients are provided with education on food as well as tips for supplements. The cost of the clinic's weight loss plan is significantly lower than similar services, and the clinic states that their methods have healthier impacts, include prescription supplements, and all services are done by a doctor and not just, "someone that took some certification course online or is just an hourly employee," according to clinic staff.

The clinic provides weight loss Modesto residents can depend on through a number of methods and ensures patients that they will be offering the same services, just in a newly updated location. Clinic staff states that the new location is more convenient for many patients and offers more space as well as a number of other beneficial amenities that they did not have at their previous location.

More about the clinic, including a list of the specific weight loss services they provide, along with information related to plans and success rates, can be found on their official website. The clinic continues to provide the same services to their clients and offers consultations for those looking to lose weight effectively and in a healthier way than with other plans. Those who would like to visit the new location can do so at the address above or contact the clinic through their website for specific directions.
