

Meet The Strongest Ladderback Chair Ever

January 20, 2016

January 20, 2016 -
Restaurant supply company Restaurant & Cafe Supplies Online has announced the addition of several new items to their restaurant seating offerings, including a ladderback chair that's stronger than all other ladderback chairs. Doug Stoutenburg, founder of the company, announced, "Among our new products are the industrial ladderback chair, which is much stronger than a regular ladderback chair because of its thicker heavy-duty 16-guage backs."

The company provides a number of restaurant seating options and consistently adds new furniture to meet customer demand. Joining the ladderback chair are the steel chair with reclaimed wood slat seat and the reclaimed douglas fir stools. Stoutenburg says, "We pride ourselves with offering true quality furniture and these new offerings fit that criteria, but won't break the bank either."

The ladderback chairs are a highly popular item and Stoutenburg stresses that they are made from high-quality materials by craftsmen in the United States, so they are much more sturdy and durable than traditional ladderback chairs.

The new chairs and stools are currently available for ordering through Restaurant & Cafe Supplies Online.

Restaurant & Cafe Supplies Online is a small company, locally owned, that focuses solely on meeting customer needs through the dining room experience. The company provides a number of seating and table options, including custom-built solutions, as well as other items in their store.
