Tree Amigos Expands Professional Tree Pruning and Removal Services to Serve Additional East Sussex Locations

November 21, 2024

Lewes, ES - November 21, 2024 -
Lewes, East Sussex ? Tree Amigos Professional Tree Care, a reputable and long-standing arboriculture service based in Lewes, is pleased to announce expanding its high-quality tree care services to new locations across East Sussex. Known for its commitment to expert care and sustainable practices, Tree Amigos now extends its specialised tree pruning, removal, and health consultation services to residents and businesses in Brighton, Haywards Heath, Eastbourne, and Burgess Hill. This expansion aims to meet the growing demand for safe, environmentally conscious tree care services in these areas.

Founded by experienced arborist Iain Hickinbottom, Tree Amigos has built a strong reputation for providing comprehensive tree care across Lewes, maintaining a high standard of safety, professionalism, and environmental respect. With over 20 years of experience, the company?s services include tree pruning, safe and controlled tree removal, tree reports, and consulting for properties in conservation areas or under Tree Preservation Orders (TPOs). Tree Amigos? expansion reflects its commitment to preserving the health and aesthetics of East Sussex?s natural landscapes.

?Expanding their service area is an exciting step for Tree Amigos, as it allows them to support more communities in East Sussex with their professional, responsible approach to tree care,? said the team at Tree Amigos. ?They are dedicated to providing services that not only meet the needs of property owners but also support environmental conservation by promoting responsible tree management.?

Tree Amigos? newly extended services emphasise essential tree pruning, a cornerstone of tree care that promotes healthier growth, improved structure, and enhanced safety for property owners. The company?s trained and certified arborists employ crown thinning, lifting, and reduction techniques, which help maintain a tree?s natural shape while reducing overgrowth and limb failure risks. This approach also aligns with the company?s commitment to long-term tree health, which can minimise costly interventions over time and support local biodiversity.

In addition to tree pruning, Tree Amigos offers controlled tree removal services, addressing concerns about diseased, dying, or hazardous trees that may pose a risk to property and public safety. Tree removal requires high precision, particularly in populated areas or conservation zones. Tree Amigos? team members are experienced in complex removal procedures, including sectional dismantling and crane-assisted removal for more giant trees. The company ensures minimal disruption to the surrounding landscape and property by following rigorous safety standards and environmentally responsible practices.

For properties in conservation areas or with Tree Preservation Orders, Tree Amigos provides consulting services to guide property owners through legal requirements and best practices for responsible tree care. This consulting service has been invaluable for homeowners and businesses, especially in areas where local regulations require a careful approach to tree management. With Tree Amigos? expansion, more residents in East Sussex can now access this guidance to ensure that tree care is conducted safely and complies with local conservation standards.

The expansion of Tree Amigos? services aligns with the increasing need for professional arboriculture in East Sussex, where climate factors and urban expansion have heightened awareness about the importance of responsible tree care. As more people seek to enhance their outdoor spaces while minimising environmental impact, Tree Amigos has responded by broadening its services to cater to the needs of growing communities. The company is fully insured and holds accreditations from the International Society of Arboriculture (ISA) and Constructionline, further reinforcing its commitment to high standards of care and professional integrity.

Residents and businesses in Brighton, Haywards Heath, Eastbourne, and Burgess Hill can now take advantage of Tree Amigos? expanded service offerings. Whether it?s routine pruning, removal of a large tree, or consultations to navigate regulatory requirements, Tree Amigos ensures that each job is handled with the utmost professionalism, care, and environmental responsibility.

?As they expand into new locations, Tree Amigos is excited to bring their experience and passion for tree care to more communities,? Hickinbottom added. ?Tree Amigos is about more than just tree work; it?s about supporting sustainable landscapes and promoting safety, aesthetics, and biodiversity throughout East Sussex.?

Tree Amigos invites property owners in Brighton, Haywards Heath, Eastbourne, and Burgess Hill to reach out for a consultation and experience the company?s high standards in professional tree care. As the company continues to expand, it remains committed to its mission of preserving the natural beauty of East Sussex while providing expert, responsible, and reliable tree care solutions.
