

Social Media Company In Miami Announces They Are Open For Business

April 09, 2015

April 09, 2015 - PRESSADVANTAGE -

(Miami, FL) CMS Social, a Social Media Company, has announced that they are now open for business. The company said that they offer an affordable social media marketing service that involves posting daily content to Facebook, Twitter, Instagram, Pinterest, Google plus and LinkedIn. While they have various pricing plans, the most affordable is their daily content plan, which is available for \$129 per month. They said that what truly puts them in a different level compared to similar companies is that they are able to offer affordable social media marketing without sacrificing the quality of the services they provide. One way in which they feel they have achieved this is by only using US-based content writers and page managers.

The Social Media Company explained that clients who buy a basic package, will be asked to fill out a new customer questionnaire, which is designed to get the right type of details for the clients' business in order to create an effective social media campaign. Once the questionnaire has been filled out, CMS Social will then use this information to post helpful, relevant content to the clients various social media pages such as Facebook, Twitter, Google plus, Instagram, Pinterest and LinkedIn, on a consistent basis. The company also said the following,

"The content we provide will be a combination of curated industry content/news, as well as links promoting your own website. Where available, the social media posts will be optimized for social search, e.g., use of keyword hashtags."

CMS Social also offers a Plus Twitter Manager, Plus Facebook Manager and Plus Twitter and Facebook Manager package. The Twitter manager package comes with all the services provided in the Daily Content plan, but they will also be focusing on increasing their clients' followers as well as responding and interacting with their followers.

The Facebook Manager package includes all of the services provided in the Daily Content plan, but the company will be interacting and responding to relevant comments, likes, shares and messages left on the clients Facebook page as well. These tasks will be performed three days per week, which is usually on Mondays, Wednesdays and Fridays. The social media company said that if they receive any message that they feel might be important, they will then forward it to their client so that they can directly respond, or to provide a response back to them so that they can post it on the client's behalf.

The Plus Twitter and Facebook manager is a combination of the two packages just mentioned, plus the daily content plan. The Plus Twitter manager and Plus Facebook manager package is available for \$209 per month, and the Plus Twitter and Facebook manager is available for \$279 per month. For those interested in getting more information on the company's services, CMS Social can be contacted through the following URL: <http://www.cmssocial.com/contact-us/>.
