

Facebook Ad 20% Checker Is Launched

January 19, 2016

January 19, 2016 - PRESSADVANTAGE -

Facebook GridTool is pleased to announce a tool that will check whether Facebook ads are more than 20% text. The Facebook Grid Ad Image Tool enables users to upload and check their ads.

The website includes the free tool and shows immediately whether an ad will be approved or won't be. Per Facebook rules, no more than 20% of a banner image can have text. Some things cannot be promoted on Facebook either. One cannot publish ads for weapons, illegal drugs, tobacco products, and more.

Facebook GridTool will help take away the guesswork when submitting ads for approval. Learn more at <http://facebookgridtool.com/>.

About Facebook Gridtool

Facebook Gridtool is a free online tool that checks the percentage of text in an ad prior to upload, and determines if ads will be approved or not.
