

CMS Social Shows Benefits Of Instagram Marketing

April 11, 2015

April 11, 2015 - PRESSADVANTAGE -

CMS Social, a Miami-based marketing firm, has shown the benefits of using the Instagram social networking platform for business promotion. This is considered to be a new and unique form of marketing that is meant to increase brand awareness, website traffic, and revenue. The company currently manages a variety of social media marketing incentives over such websites as Instagram, Facebook, Twitter, Google +, LinkedIn, and Pinterest.

Currently the Instagram services are available for \$129 per month, which includes posting to the other 5 social networks as well. All social media marketing packages can be ordered through the company website. The package works by supplying USA-based content writers and page managers who process daily updates and posts to all of the Instagram social media platform. This provides consumers with a more human relationship with the business being promoted, and offers insight into upcoming events, new promotions, and other information they might otherwise miss.

Instagram marketing services can be purchased in addition to all other social media management or on its own, and various other services, outside of daily content, can be ordered as well at an additional cost. CMS Social has said the following in regards to their Instagram marketing services and other options:

"Our social media experts take all the pains out of consistently creating and posting quality content to your company's social media pages, freeing up your time to focus on your business. We do all this at a very affordable monthly price, much cheaper than hiring someone in-house too!"

CMS Social encourages businesses, entrepreneurs and startups to use their website's Contact Us page at <http://www.cmssocial.com/contact-us/> to inquire about current and upcoming marketing opportunities, and invites new users to view all of the other site features as well. Currently, plans and pricing, special features, and an FAQ page full of frequently asked questions can be found on the site. The team promises quality insurance on every service, and content variety in their posts to any of the mentioned social media platform types that a business might use. They have said this about the content that they create for their customers:

"As the saying goes 'Variety's the Spice of Life,' and in terms of Social Media Marketing that statement remains true. Utilizing your Social Profile our content writers craft a variety of engaging content designed to help attract followers, gain 'Likes', and build your audience."

New clients, or those interested in potentially using these services, can find out more about personal client interactions by reading the testimonials left by users of CMS Social services. These are displayed on the website and are promoted by the company as a way to see how much social media can impact the success of a growing business. The social profile management supplied to clients is described as being more than just content posting, but also includes in-depth research of the business being represented and the target audience trying to be reached.
