

CMS Social Reveals Benefits Of Pinterest Marketing For Business Promotion

April 11, 2015

April 11, 2015 - PRESSADVANTAGE -

(Miami, FL) CMS Social, a Florida-based marketing firm, has shown the benefits of Pinterest marketing strategies in business promotion. The company offers social media marketing services as an affordable option for the updating and maintenance of postings to social media platforms without the need for businesses to constantly check on their feeds. They have said the following regarding their work with social media:

"We take the stress out of your social media marketing by creating and posting content on a daily basis to all your social channels including: Facebook, Twitter, Google Plus, Instagram, Pinterest, and LinkedIn."

These services are offered not only for Pinterest marketing, but also for Instagram, Facebook, Twitter, Google Plus, and Linked In. They can be purchased at a package price of \$129 per month for content updates, or in a variety of other package preferences, which range in price depending on the amount of management required. Currently, the various packages and pricing can all be perused at the company website, including testimonials from satisfied users.

CMS Social emphasizes that they only provide USA-based content writers and page managers to their clients, thus supplying jobs in the United States. They also provide clients with managers who fluently speak and write their chosen language of preference for company updates. One of the most popular forms of social media marketing being supplied by CMS Social at present is their Pinterest marketing package, which offers users the chance to scroll through interesting and pertinent information, images, videos, and other documents that not only promote a business but also benefit consumers.

Interested businesses and entrepreneurs who want to promote their products or services through social media are directed to <http://www.cmssocial.com/contact-us/> to contact CMS Social for more information on the variety of packages and the services that are included. New or potential clients can also learn more about what social media can offer to individual businesses by checking out the many loyal client testimonials sprinkled throughout the various site pages. These are ratings and remarks that have been left by clients who have used the CMS Social services in the past and have been satisfied with the results. They have made it clear that they take customer loyalty very seriously, and reinforce this with quality assurance as they mention here:

"We have an extensive checks & balances system in place to ensure the content being posted to your accounts are relevant, engaging, and represent your business in a professional manner."

Hashtags, quotes, images, videos, and other content are all included in the content that are posted by CMS Social; this is explained by the company as a way to get businesses noticed and help spread the word about specific services and promotions.
