

Castle Dental Care Opens New Purpose-Built Premises in the Heart of Alnwick in England

December 21, 2024

December 21, 2024 - PRESSADVANTAGE -

Castle Dental Care, led by Principal Dentist Dr Duncan Thomas, is proud to announce its recent relocation to new, purpose-built premises on the first floor of 32-34 Bondgate Within, Alnwick. This move marks a significant milestone for the practice which has been a trusted provider of exceptional dental care for the Alnwick community and surrounding areas from Market Street Dental Practice for many years..

Over the years, the practice has grown immensely, earning a reputation for its patient-focused approach, dedication to preventative dentistry, and commitment to delivering outstanding results. However, with the continued growth of the practice, the original premises on Market Street became increasingly congested, prompting the need for a larger, more modern facility to better serve its patients.

The new location, just a three-minute walk from the previous site, offers an enhanced patient experience. With significant investment made in designing and constructing a purpose-built dental practice, the new premises boast state-of-the-art equipment, spacious treatment rooms, and a welcoming environment. These upgrades ensure that Castle Dental Care remains at the forefront of modern dentistry while maintaining its commitment to patient comfort and care.

“Relocating the practice was a necessary step to accommodate our growing patient base and to continue providing the high-quality dental care our community deserves,” said Dr Thomas. “Our new premises have been designed with our patients’ needs in mind, offering a comfortable and welcoming space equipped with the latest dental technology. We are excited to embark on this new chapter as Castle Dental Care.”

As part of the transition, the practice underwent a comprehensive rebranding to reflect its commitment to growth and excellence. The new name, Castle Dental Care, reflects the outstanding scenery from the floor to ceiling windows in the new waiting room, offering unrivalled views over Alwick Castle. To complement the rebranding, a new website has been launched, providing an easy and convenient way for patients to access information about the practice, and stay updated on the latest news. The website can be visited at <https://castledentalcare.co.uk>.

At Castle Dental Care, the philosophy of holistic dentistry is central to the practice’s approach. Dr Thomas and his team understand the vital connection between oral health and overall wellbeing, and they are passionate about helping patients achieve a healthy life through preventative dental care. By focusing on education, early intervention, and personalised treatment plans, the practice aims to empower patients to maintain their oral health and enjoy confident, healthy smiles for years to come.

Castle Dental Care’s reputation for excellence is evidenced by its impressive track record of patient satisfaction. To read what patients have to say, visit <https://gotothis.one/castle-dental-care-alwick>.

“We believe that good oral health is essential to overall wellbeing,” added Dr Thomas. “Our holistic approach to dentistry is designed to help our patients live healthier, happier lives. We are committed to providing preventative care and tailored treatments that address each patient’s unique needs.”

The team at Castle Dental Care is excited to welcome both new and returning patients to their modern facility. With a steadfast commitment to excellence, a highly skilled team, and a patient-centred approach, Castle Dental Care is poised to continue making a positive impact on the Alwick community for many years to come.
