Colorado Springs, CO business Leven Rose, which has the leading organic Jojoba Oil on Amazon, has also released a blog post listing 100 uses to include it in daily routines. While an increasing number of people are using carrier oils, for which Jojoba Oil can be utilized for blending with essential oils, most of them don't realize the many applications for it. To make sure people get the most out of their natural oil, the company has published a list of uses that can be found at <http://blog.levenrose.com/100-uses-for-jojoba-oil/>.

Leven Rose's Courtney Olson says: "Jojoba Oil has been around for centuries but only recently has it become a staple in beauty routines everywhere. Because of its pure natural power because of naturally-occurring compounds, Jojoba Oil is so versatile that there are literally hundreds of ways you can use it. Do you know all of the uses for Jojoba Oil on our list?"

The company provides pure organic Jojoba Oil, which is also 100% natural and chemical-free. The oil has been cold pressed using an expeller, which is a screw-like mechanism that presses out the oil (which is actually a wax) without heating up the oil. It is vital to keep the oil from getting too hot, as some of its properties would get lost if it gets overheated, making it far less beneficial.

Those who have used the Leven Rose Jojoba Oil have been very positive about it and have contributed to

the list of possible uses themselves. "I love this Jojoba Oil. I used it as my day and night moisturizer," says Ailoin N. "I even used it as hand lotion. Love it. Can't leave without. Good that I bought 2 bottles."

Many people have used the oil on the skin of their feet, and also in their hair, to name but a few uses. The company has also encouraged people to read through their list of uses and take selfies of the oil in action. These photographs can then be shared through the company's Instagram account on <http://instagram.com/levenrosebeauty/>. Many selfies have already been posted already but there's always room for more.
