JW Neathery Expands Construction Services in Magnolia, TX to Enhance Outdoor Living Space

January 23, 2025

Magnolia, Texas - January 23, 2025 -
JW Neathery, a well-known custom home builder in Montgomery County, Texas, has announced that they are expanding their services to include outdoor space construction. This company is recognized for its luxury custom homes and renovations, and now they plan to offer expertly designed outdoor living areas as well. The aim is to give clients more lifestyle options by combining the comfort of indoor living with the beauty of outdoor spaces, all while focusing on client collaboration and careful craftsmanship.

The move to include outdoor spaces is closely tied to JW Neathery's philosophy of designing homes that reflect homeowners' personalities and lifestyles. They are dedicated to creating outdoor spaces that complement the home's architectural style and incorporate the area's natural beauty. Each design will take into account the property layout, existing landscaping, and homeowner preferences to make spaces both functional and visually appealing.

"We've always understood that a home extends beyond its four walls. By adding outdoor space construction to our portfolio, we're able to provide our clients with integrated living environments that truly cater to their lifestyles," says Jason Neathery, CEO of JW Neathery. "These outdoor areas are crafted to enhance not just

the home itself but the way our clients live, entertain, and relax."

With this new service, clients will experience a planning process similar to how JW Neathery builds custom homes. This includes thorough consultations and careful planning, resulting in detailed designs that meet client wishes and budgets. Throughout construction, the company keeps things transparent, with regular on-site meetings and updates.

The outdoor construction services they offer include designing kitchens, constructing patios and decks, creating fire features, and adding water elements. JW Neathery also provides customized solutions for large properties, using hardscaping and landscaping to create a unified look. Each space's hospitality and charm are enhanced with well-thought-out lighting and furniture choices.

"Our goal is to deliver spaces where families can make memories and enjoy their time together. We are proud to bring the same level of craftsmanship and attention to detail to outdoor areas as we do to our home interiors," Jason Neathery adds. "Our team is dedicated to making these projects as seamless and rewarding as the indoor spaces they complement."

JW Neathery's services cover several communities north and west of Houston, like Montgomery, Huntsville, and Tomball. In every project, their goal is to build not just structures but also strong, lasting partnerships with homeowners, offering attentive and responsive service throughout construction. The areas they serve also include Bellville and the Lake Conroe area.

Their updated website at www.jwneathery.com has comprehensive information about these new services, and visitors can see various featured projects. Those interested in creating their dream outdoor space with JW Neathery are encouraged to reach out. Contact information and consultation hours are easily accessible for anyone looking to discuss potential projects.

For people curious about outdoor space construction with JW Neathery, the new website offers resources and contact forms for direct communication. They invite clients to call or visit their site to set up an initial consultation or get more detailed information about what they offer. JW Neathery also stays engaged on social media, sharing updates about current projects and industry trends.

Committed to excellence and maintaining high customer satisfaction, JW Neathery aims to bring both innovation and quality to every outdoor space they design. This service expansion showcases their continual dedication to meeting community needs with custom solutions that align with their clients' goals and environment.
